Topic:

Consideration and Possible Action Regarding Solid Waste Collection and Disposal Services for the City of Tomball, Texas and the Proposed Service Level for the Contract for Project No. 2014-06, Solid Waste Collection and Disposal Services for the City of Tomball, between the City of Tomball and WCA Waste Corporation

Background:

At the regular City Council Meeting of July 21, 2014, City Council awarded the City's Solid Waste Collection and Disposal Services Contract to WCA Waste Corporation of Texas. Included in the RFQ process for the Solid Waste Collection and Disposal Services Contract to be effective October 1, 2014 are three options for the type of garbage collection and disposal and the recyclable collection services to be offered to Tomball residents. The three residential garbage service options being considered, as contained in the RFQ documents are;

- ITEM #1 - Residential curbside refuse collection and disposal consisting of 2x/week pickup of Plastic bags placed curbside and including once per week curbside collection and disposal of 18 gallon recyclable container and green waste collection and disposal.
- ALTERNATE A - Residential curbside refuse collection and disposal consisting of 1x/week pickup of 95 gallon poly cart placed curbside and including once per week curbside collection and disposal of 18 gallon recyclable container and green waste collection and disposal.
- ALTERNATE B - Residential curbside refuse collection and disposal consisting of 1x/week pickup of 95 gallon poly cart placed curbside and including once per week curbside collection and disposal of 95 gallon recyclable poly cart and green waste collection and disposal.

At the July 21, 2014 City Council Meeting, Council directed staff to conduct a public survey that would assist the City in determining which type of services would be most advantageous for residents of Tomball. On July 28, 2014, City staff released a questionnaire and provided background information to the public regarding the three available service options, as well as the methods available to obtain additional information and submit their opinion regarding the types of services being considered.

As of 1:00 p.m. on August 13, 2014, staff received 322 submittals from residents of Tomball via email, the City's online survey, printed forms, and telephone. Of the 322 submittals provided by residents; 201 preferred ITEM #1 (existing bag-only service type), 80 preferred OPTION A (1x/week polycart w/18 gallon recyclable), and 42 preferred OPTION B (1x/week polycart w/polycart recyclable).

WCA has provided two 95-gallon poly carts to be examined by the public which are on display at City Hall and Public Works, and staff has publicized the survey in both local newspapers, on the City's website, and in the City's e-newsletter.

Attached for your review is a copy of the "Let's Talk Trash" Residential Solid Waste Services Questionnaire, and a copy of the Solid waste Collection and Disposal Survey Tabulation as of 1PM on August 13, 2014.

TOMBALL CONSIDERS CHANGE IN RESIDENTIAL GARBAGE COLLECTION PROCEDURE

Consideration is being given to change the current trash service for Tomball residents.
We currently provide twice a week bag-only service and are considering a once a week service using 95-gallon rolling poly carts. We want to know your preference.

A sample of the new 95-gallon poly cart is on display in the lobby of City Hall at 401 Market Street and at the Public Works offices at 501 James Street. City residents are asked to visit one of these locations, examine the poly cart, and fill out a short questionnaire as to their preference of garbage service.

The questionnaire is also available online at www.tomballtx.gov, or you may email your choice of service to Dspeer@tomballtx.gov. (**PUT THE ACTUAL LINK TO THE SURVEY HERE)**

Please call either David Kaufmann at 281-290-1415 or Steve Purvis at 281-290-1426 for more information.

COMMUNITY SURVEY – LET'S TALK TRASH - BAG SERVICE VS POLY CARTS

The City of Tomball's trash service is up for renewal. We have priced three different levels of service and want your input before we decide.

We currently provide plastic trash bags to residents and have trash picked up twice a week, with once a week recycling in an 18-gallon recycling container. The current cost is $14.74 per month.

Consideration is being given to replace the current program of twice a week, bag only service, with once a week service using 95-gallon rolling poly carts.

Before making a decision, the City wants to hear from you. Please take a minute to complete this simple survey.

☐ I prefer the current service with City provided plastic bags to be picked up twice a week and an 18-gallon recycling container picked up once a week. New cost would be $15.70 per month.

☐ I prefer use of a City provided 95-gallon rolling poly cart with once a week pick up and the 18-gallon recycling container. Cost would be $12.75 per month.

☐ I prefer use of a City provided 95-gallon poly and a 95-gallon recycling cart with once a week pick up. Cost would be $14.49 per month.

CITY OF TOMBALL, TEXAS

MUNICIPAL SERVICE PLAN

I. INTRODUCTION

This Municipal Service Plan (the "Plan") is made by the City of Tomball, Texas (the "City"), pursuant to Chapter 43 of the Texas Local Government Code. This Plan relates to the annexation by the City of the tract of land ("Tract") described by metes and bounds in "Exhibit A," which is attached to this Plan and to the annexation ordinance of which this Plan is a part.

II. EFFECTIVE TERM

This Plan shall be in effect for a period of ten (10) years commencing on the effective date of the annexation of the Tract, unless otherwise stated in this Plan. Renewal of the Plan shall be at the option of the City. Such option may be exercised by the adoption of an ordinance by the City Council, which refers to this Plan and specifically renews this Plan for a stated period of time.

III. INTENT

It is the intent of the City that services under this Plan shall equal the number of services and the level of services in existence within the Tract prior to annexation and which are available in other parts of the City with land uses and population densities similar to those reasonably contemplated or projected within the Tract. However, it is not the intent of this Plan to require that a uniform level of service be provided to all areas of the City, including the Tract, where differing characteristics of topography, land utilization, and population density are considered as a sufficient basis for providing differing service levels.

The City reserves the right, granted to it by Section 43.056(k), Texas Local Government Code, to amend this Plan, if the City Council determines that changed conditions or subsequent occurrences or any other legally sufficient circumstances exist under the Texas Local Government Code, or other Texas laws to make this Plan unworkable, obsolete, or unlawful.

IV. SERVICE PROGRAMS

A. In General.

1. This Plan includes the following service programs: A 60-Day Program and a Capital Improvement Program.

2. As used in this Plan, “providing services” shall include having services provided by any method or means by which the City may extend municipal services to any other area of the City. The City shall provide the area, or cause the area to be provided, with services in accordance with the Plan. This may include, but is not limited to, causing or allowing private utilities, governmental entities, and other public service organizations to provide such services, in whole or in part.

   As used in this Plan, the phrase "standard policies and procedures" shall mean those policies and procedures of the City applicable to a particular service, which are in effect either at the time that the service is requested or at the time the service is made available or provided. Such polices and procedures may require a specific type of request be made, such as an application or a petition, may require that fees or charges be paid, and may include eligibility requirements or other similar provisions.

B. 60-Day Program. The following services will be provided within the Tract within the period required by State law. State law requires the City to provide the following services within sixty (60) days after the effective date of the annexation: police protection, fire protection, solid waste collection, operation and maintenance of water, wastewater, and gas facilities, operation and maintenance of roads and streets, including lighting, operation and maintenance of parks, playgrounds, and swimming pools, and maintenance of any other publicly owned facility, building or service. The 60-Day Program plan is as follows:

   1. Police Protection. The Police Department of the City will provide protection and law enforcement within the Tract. These activities will include routine patrols and responses, handling of complaints and incident reports, and, as appropriate, support by special units. In order to provide the above services, the Police Department will operate from a City facility.

   2. Fire Protection. The Fire Department of the City currently provides fire protection to the Tract. Fire protection will be provided from either the southside or central fire stations. Fire protection will remain at the current level of service.

   3. Solid Waste Collection. All eligible residences and businesses will be provided solid waste collection service, either by City personnel or by contract.

   4. Maintenance of Water, Wastewater, and Gas Facilities. There are no City water, wastewater, or gas facilities currently located within the Tract. If any such facilities are constructed or acquired by the City within the Tract, the City’s Department of Pubic Works will operate and maintain such facilities at levels of service and maintenance comparable to those available for other such facilities in other parts of the City with similar topography, load use, and population density as those reasonably contemplated or projected within the Tract.

5. Operation and Maintenance of Roads and Streets (including lighting). The City's Department of Public Works will provide for the maintenance of roads and streets over which the City will have jurisdiction. Such Department will also provide services relating to traffic control devices and will provide street lighting for such roads and streets through an electric utility company or by other means. The operation and maintenance of roads and streets, including street lighting and traffic control devices, shall be provided at levels of service and maintenance comparable to those available for other roads and streets in other parts of the City with similar topography, load use, and population density as those reasonably contemplated or projected within the Tract.

6. Operation and Maintenance of Parks, Playground and Swimming Pools. There are no public parks, playgrounds, or swimming pools currently located within the Tract. If, as a result of acquisition of park land, any such facilities are constructed by the City within the Tract, the City's Department of Parks and Recreation will operate and maintain such facilities at levels of service and maintenance comparable to those available for other such facilities in other parts of the City with similar topography, load use, and population density as those reasonably contemplated or projected within the Tract.

7. Operation and Maintenance of Any Other Publicly-Owned Facility, Building, or Service. Those drainage facilities associated with City-maintained public streets will be maintained by the City's Department of Public Works, as needed. Any other facility, building, or service existing or which may be constructed or located by the City within the Tract, will be operated and maintained by an appropriate City department at levels of service and maintenance comparable to those available to other such facilities in other parts of the City with similar topography, load use, and population density as those reasonably contemplated or projected within the Tract.

C. Capital Improvement Program. It is the intent of the City to provide full City services within the Tract not less than four and one-half (4-1/2) years after the effective date of annexation of the Tract, in accordance with the Texas Local Government Code, § 43.056(e).

The City will initiate the acquisition and construction of the capital improvements necessary to provide municipal services adequate to serve the Tract. Any necessary construction or acquisition is indicated below, and any such construction or acquisition shall begin within two (2) years of the effective date of this Plan and shall be substantially completed within 4-1/2 years, except as otherwise indicated:

1. Police Protection. No capital improvements are necessary at this time to provide police protection services within the Tract. The Tract will be

included with other City territory in connection with planning for new, revised, or expanded police facilities.

2. Fire Protection. No capital improvements are necessary at this time to provide fire protection services within the Tract. The Tract will be included with other City territory in connection with planning for new, revised, or expanded fire facilities.

3. Solid Waste Collection. No capital improvements are necessary at this time to provide solid waste collection services within the Tract. The Tract will be included with other City territory in connection with planning for new, revised, or expanded solid waste facilities and/or services.

4. Wastewater Facilities. The Tract will be included with other City territory in connection with planning for new, revised, or expanded public wastewater facilities. Wastewater services will be provided according to the standard policies and procedures of the City's Department of Public Works. A summary of the City's policies with regard to the extension of wastewater services is attached to and made a part of this Plan.

5. Water Distribution. The Tract will be included with other City territory in connection with planning for new, revised, or expanded public water facilities. Water services will be provided according to the standard policies and procedures of the City's Department of Public Works. A summary of the City's policies with regard to the extension of water services is attached to and made a part of this Plan.

6. Gas Distribution. The Tract will be included with other City territory in connection with planning for new, revised, or expanded public gas facilities. Gas services will be provided according to the standard policies and procedures of the City's Department of Public Works. A summary of the City's policies with regard to the extension of gas services is attached to and made a part of this Plan.

7. Roads and Streets (including lighting). The City will acquire jurisdiction in and over all public roads and streets within the Tract upon annexation, pursuant to Section 311.001 of the Texas Transportation Code and other similar provisions, except for public roads and streets subject to the jurisdiction of other governmental entities. Additional roads, streets, or related facilities are not necessary at this time to service the Tract. Future extensions of roads or streets and future installation of related facilities, such as traffic control devices or street lights, within the Tract will be governed by standard policies and procedures of the City. The Tract will be included with other City territory in connection with planning for new, improved, revised, widened, or enlarged roads, streets, or related facilities.

8. Parks, Playgrounds, and Swimming Pools. No capital improvements are necessary at this time to provide park and recreational services to the

Tract. The Tract will be included with other City territory in connection with planning for new, revised, or expanded parks, playgrounds, and/or swimming pools.

9. Other Publicly-Owned Facilities, Buildings or Services: Additional Services. In general, other City functions and services can be provided to the Tract by using existing capital improvements. At this time, additional capital improvements are not necessary to provide City services. However, the Tract will be included with other City territory in connection with planning for new, revised, or expanded facilities, functions, and services.

V. AMENDMENT: GOVERNING LAW

This Plan may not be amended or repealed, except as provided by the Texas Local Government Code or other controlling law. Neither changes in the methods or means of implementing any part of the service programs nor changes in the responsibilities of the various departments of the City shall constitute amendments to this Plan, and the City reserves the right to make such changes at any time. This Plan is subject to, and shall be interpreted in accordance with, the Constitution and laws of the United States of America and the State of Texas, the Texas Local Government Code, and any orders, rules, or regulations of any other governmental body having jurisdiction.

VI. FORCE MAJEURE

In the event the City is rendered unable, wholly or in part, by force majeure to carry out its obligations under this Plan, notice shall be given with full particulars of such force majeure, in writing, as soon as reasonably possible after the occurrence of the cause relied on, and the City's obligations, so far as effected by such force majeure, shall be suspended during the continuance of such inability so caused but for no longer period, and such cause shall, so far as possible, be remedied with all reasonable dispatch; provided, however, City shall not be required to settle a strike or dispute with workmen when such settlement is against the will of the City. The term "force majeure" shall mean acts of God, strikes, acts of the public enemy, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, washouts, arrests and restraints of rulers and people, explosions, breakage or accident to machinery or lines of pipe, droughts, hurricanes and tornadoes, and any other inability of either party, whether similar to those enumerated or otherwise, not within the control of the City, which, by the exercise of reasonable diligence, the City shall not have been able to avoid.

VIII. ENTIRE PLAN

This document contains the entire and integrated Plan relating to the Tract and supersedes all other negotiations, representations, plans, and agreements, whether written or oral.

If one or more provisions of this Plan is held to be invalid, unenforceable, or illegal in any respect, the remainder the Plan shall remain valid and in full force and effect.

SUMMARY OF EXTENSION POLICY FOR WATER, WASTEWATER, AND GAS SERVICE

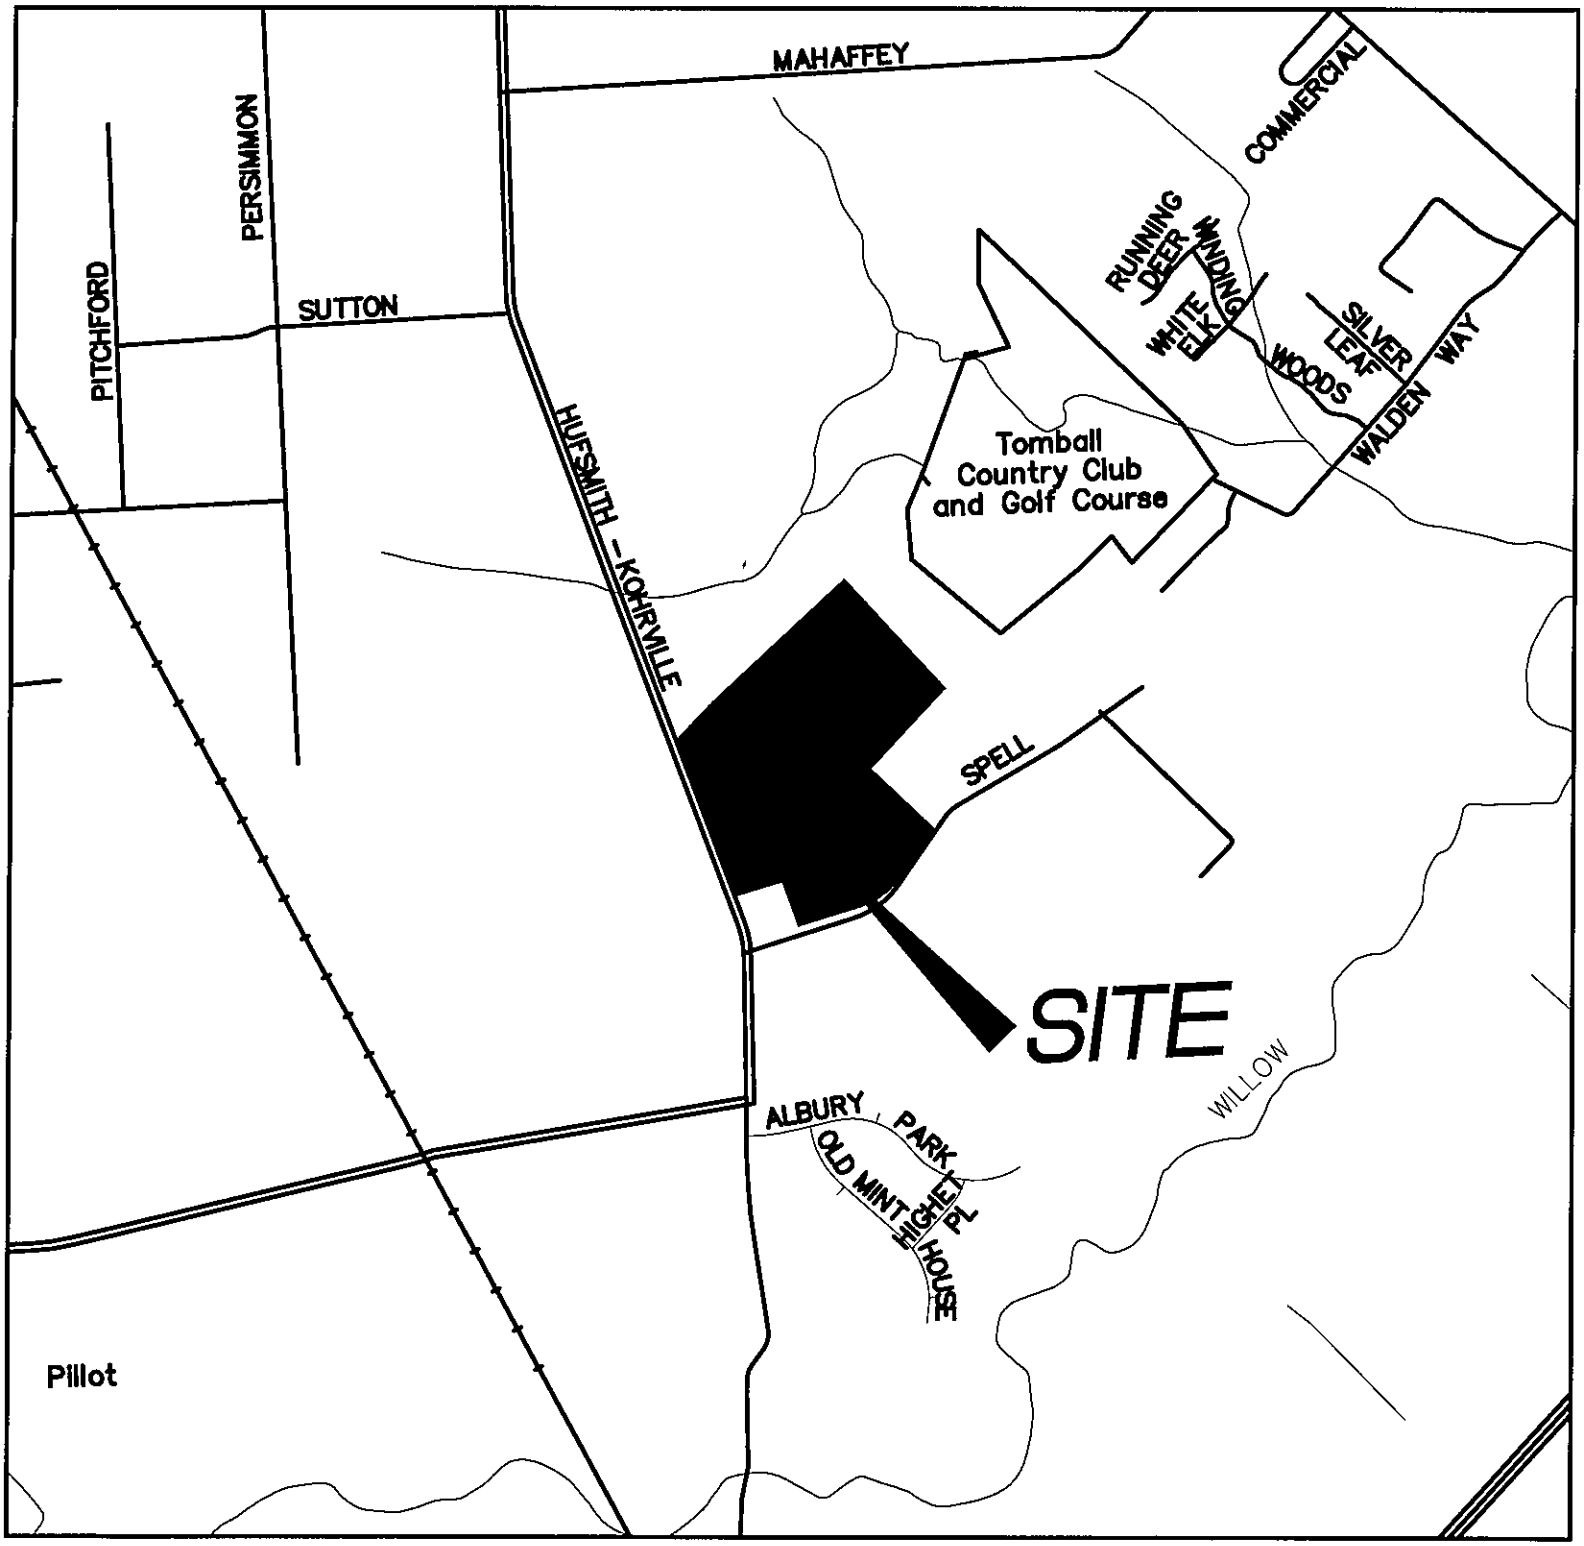

The following information is a summary of the City of Tomball's ("City") policies respecting water, wastewater and gas service extensions. This summary is made in compliance with the Texas Local Government Code, which requires that each annexation plan include a summary of the service extension policy. Nothing herein shall repeal any provision of the Code of Ordinances of the City of Tomball, as amended, or any of the uncodified ordinances that contain the City's policies and procedures.

The City extends water, wastewater, and gas services to existing unserved development as follows:

Construction of such service lines is based on a priority schedule that considers potential health hazards, population density, the number of existing buildings, the reasonable cost of providing service, and the desires of the residents of the unserved areas.

Extensions built by the City at its cost are included in its Capital Improvements Plan, which is updated annually. Placement of an extension or enlargement of any water and/or wastewater lines into the Capital Improvement Plan is based primarily on the following requirements: (1) to provide service to unserved areas, (2) and to provide adequate capacity for projected service requirements.

Persons or entities desiring to develop land within unserved areas must construct water, wastewater, and gas service lines and extensions to connect to City trunk lines to serve the new development.

Topic:

Adopt, on Second Reading, Ordinance No. 2014-20, an Ordinance of the City of Tomball, Texas, Amending Its Comprehensive Plan by Changing the Future Land Use Classifications of Approximately 70.36 Acres of Land, Legally Described as All of Proposed Alexander Estates Subdivision and Being a Partial Replat of Tomball Greens Unrestricted Reserve "C" as Recorded in F.C. No. 440128, H.C.M.R. out of the Elizabeth Smith Survey, A-70 Harris County, Texas, within the City of Tomball, Harris County, Texas; from Rural Residential and Business/Industrial to Medium Density Residential; Said Property Being Generally Located East of Hufsmith-Kohrville Road, North of Spell Road; Providing for the Amendment of the Comprehensive Plan of the City; Providing for Severability; Providing for a Penalty of an Amount Not to Exceed $2,000 for Each Day of Violation of Any Provision Hereof, Making Findings of Fact; and Providing for Other Related Matters

Background:

On April 16, 2014, the City of Tomball held a pre-plat meeting with Doug Eibsen and representatives from Jones and Carter, an Engineering, Planning, and Surveying firm, to discuss a proposed 128-unit, detached single-family subdivision known as Alexander Estates. The subdivision is generally located at the northeast corner of Hufsmith-Kohrville and Spell Roads and is approximately 70 acres in size. During the pre-plat meeting, Mr. Eibsen and Jones and Carter inquired into the process of annexing into the City limits. City staff informed those in attendance of the following:

- Annexation requests are handled through the City Secretary's office and if they wished to pursue annexation they would need to make their request directly to the City Secretary's office.

- If they were annexed, their zoning classification would automatically be established as Agricultural District per Section 6.1 of the Zoning Ordinance.

- Their proposed plat did not appear to meet the minimum requirements of the Agricultural District in regards to minimum lot size and building setbacks and they may want to consider changing to the plat to reflect Agricultural District standards or request a Rezoning at the time of annexation to a district which reflects the intent of their development.

Upon possible annexation on August 18, 2014, the subject site will be assigned a zoning classification of Agricultural District per Section 6.1 of the Zoning Ordinance. Because the proposed subdivision will require the site to be zoned Single-Family Residential-9 District to be able to construct the subdivision as desired, the property owners have submitted a Rezoning application requesting the property be rezoned from the Agricultural District to the Single-Family Residential-9 District. The Rezoning request will be heard as Zoning Case P14-102. Additionally, the applicant was informed that the Single-Family Residential-9 District would not be compatible with the property's current Future Land Use designations of Rural Residential and Business/Industrial and that he could request the Comprehensive Plan be amended. On June 9, 2014, the applicant submitted a request to change the Future Land Use designation of the subject site from Rural Residential and Business/Industrial to Medium Density Residential to make the Single-Family Residential-9 rezoning request consistent with the Comprehensive Plan.

The Planning & Zoning Commission heard this request on July 14, 2014, and unanimously voted to

recommend APPROVAL. On August 4, 2014, Council adopted Ordinance No. 2014-20 on First Reading.

BACKGROUND

On April 16, 2014, the City of Tomball held a pre-plat meeting with Doug Eibsen and representatives from Jones and Carter, an Engineering, Planning, and Surveying firm, to discuss a proposed 128-unit, detached single-family subdivision known as Alexander Estates. The subdivision is generally located at the northeast corner of Hufsmith-Kohrville and Spell Roads and is approximately 70 acres in size. During the pre-plat meeting, Mr. Eibsen and Jones and Carter inquired into the process of annexing into the City limits. City staff informed those in attendance of the following:

[1] The property owner is currently in the process of requesting annexation. If the property is annexed, it will be given a zoning classification of Agricultural District per Section 6.1 of the Zoning Ordinance. Additionally, the property owner is requesting the property be rezoned from the Agricultural District to the SF-9 District in Zoning Case P14-102.

- Annexation requests are handled through the City Secretary's office and if they wished to pursue annexation they would need to make their request directly to the City Secretary's office.

- If they were annexed, their zoning classification would automatically be established as Agricultural District per Section 6.1 of the Zoning Ordinance.

- Their proposed plat did not appear to meet the minimum requirements of the Agricultural District in regards to minimum lot size and building setbacks and they may want to consider changing to the plat to reflect Agricultural District standards or request a Rezoning at the time of annexation to a district which reflects the intent of their development.

On June 2, 2014, the City received a request for annexation for the subject site. On June 16, 2014, City Council approved a resolution declaring its intent to annex. Public hearings for the annexation are scheduled before City Council for July 7 and July 14, 2014 and the first and second readings of the ordinance to annex are scheduled for August 4 and August 18, 2014, respectively.

Upon possible annexation on August 18, 2014, the subject site will be assigned a zoning classification of Agricultural District per Section 6.1 of the Zoning Ordinance. Because the proposed subdivision will require the site to be zoned Single-Family Residential-9 (SF-9) District to be able to construct the subdivision as desired, the property owners have submitted a Rezoning application requesting the property be rezoned from the Agricultural District to the SF-9 District. The Rezoning request will be heard as Zoning Case P14-102. Additionally, the applicant was informed that the SF-9 District would not be compatible with the property's current FLU designations of Rural Residential and Business/Industrial and that he could request the CP be amended. On June 9, 2014, the applicant submitted a request to change the FLU designation of the subject site from Rural Residential and Business/Industrial to Medium Density Residential to make the SF-9 rezoning request consistent with the CP (Exhibit "E").

ANALYSIS

The proposed FLU designation for this site is Medium Density Residential. The CP states, "Medium Density Residential…includes suburban-type development that is intended to be single family detached residential development. Residential lots sizes range from 6,000 and 20,000 square feet. This designation may also include such supporting land uses as neighborhood shops and services, parks and recreation amenities, religious institutions, small offices and schools to serve local residents where deemed appropriate by the City. A full range of urban services and infrastructure is required. These areas must have an adequate street network to support the amount of residential density."

There are several land uses in the vicinity of the subject site. To the north are single-family residences in Country Club Greens subdivision; to the south are Spell Road and single-family residences; to the west are Hufsmith-Kohrville Road, vacant land, a commercial use (CREACOM, Inc.), and a single-family residence; and to the east is vacant land. The Medium Density Residential FLU designation appears to be consistent and compatible with the existing land uses to the east of Hufsmith-Kohrville Road. The prima facie inconsistency and incompatibility of the request with the existing commercial use to the west appears to be minimized because of their separation by Hufsmith-Kohrville Road which is designated as a Major Arterial in the City's Major Thoroughfare Plan.

The majority of the properties in the vicinity of the subject site are unzoned because they are either in the City's ETJ or not in the City limits/ETJ. However, the properties to the west are zoned Light Industrial District. According to Section 31.1 of the Zoning Ordinance, the Light Industrial District "is intended primarily for the conduct of light manufacturing, assembling and fabrication activities, and for warehousing, research and development, wholesaling and service operations that do not typically depend upon frequent customer or client visits. Such uses do require accessibility to major thoroughfares, major highways, and/or other means of transportation such as the railroad." The prima facie inconsistency and incompatibility of the request with the Light Industrial District to the west appears to be minimized because of their separation by Hufsmith-Kohrville Road.

The predominant FLU designations in the vicinity are Rural Residential and Business/Industrial. To the north is Rural Residential; to the south is undesignated land because it is not in the City limits/ ETJ; to the west are Rural Residential and Business/Industrial; and to the east is Business/Industrial. According to the CP:

- Rural Residential includes residential developments on minimum 1-acre lots that allows up to one house per acre lot. The intent is to provide for a rural lifestyle as well as to encourage appropriate development due to environmental constraints such as waterways, floodplains, and other features.

- Business/Industrial indicates where industrial and intensive employment activities should occur. Activities that will require unenclosed assembly, repair and/or storage and require heavy truck or rail transportation support are acceptable. Also included would be warehousing and distribution facilities, as well as offices and showrooms.

The Medium Density Residential FLU designation appears to be consistent and compatible with the Rural Residential FLU designations to the north and west. Again, the prima facie inconsistency and incompatibility of the request with the Business/Industrial FLU designation west of Hufsmith-Kohrville Road appears to be minimized because of their separation by a major thoroughfare. The Business/Industrial FLU designation to the southwest and east may be compatible with Medium Density Residential if the Business/Industrial land uses are developed with the appropriate design standards (i.e. building setbacks, fencing, landscaping, etc.).

City staff recommends **APPROVAL** of this requested based on the following:

1. The request appears to be consistent and compatible with many of the surrounding land uses, zoning districts, and FLU designations as explained above.

2. The request appears to enhance the City economically by adding 128 residential lots to the tax rolls.

3. The request appears to be consistent with the following CP goals, objectives, and actions:

    a. Objective LUD 1.2: Promote a cohesive land use pattern by minimizing incompatible land uses.

        i. The request appears to be consistent and compatible with the existing residential land uses to the north, east, south, and southwest.

    b. Action LUD 1.1.5: Ensure that new developments invest in and contribute to the community's quality of life and amenities.

i. Approximately 15% of the development has been restricted to landscape, open space, drainage, detention, access, or utility purposes. These areas are anticipated to contribute to the community's quality of life and amenities.

c. Action LUD 3.1.2: Partner with the development community to provide a wide variety of housing products that are compatible with existing neighborhoods and meet existing and future residential needs.

i. The request appears to allow for the creation of a more diverse housing stock in the area while protecting the general character of the area.

ii. With the City's growing population, there is a demand for single-family homes. This request appears to assist in meeting existing and future residential need.

4. The request appears to be a better use of land than what is recommended by the CP.

a. The existing Business/Industrial classification appears to be inconsistent and incompatible with the existing uses to the east of Hufsmith-Kohrville Road. The request appears to ensure that many of the existing land uses will be protected from incompatible and inconsistent Business/Industrial type uses.

5. As described above, the request appears to positively impact adjacent residential areas.

6. The request appears to have adequate access and roadway capacity.

7. The uses adjacent to the proposed development are similar in nature in terms of appearance, hours of operation, and other general aspects of compatibility.

PUBLIC COMMENT

Property owners within 200 feet of the project site were mailed notification of this proposal on July 3, 2014; one public comment was received in support of the request (Exhibit "F") as of July 8, 2014.

RECOMMENDATION

Based on the findings outlined in the analysis section of this staff report, City staff recommends **APPROVAL** of Comprehensive Plan Amendment Case P14-118.

Re: Request for Comprehensive Plan Amendment

Ms. Guerra:

This letter serves as a formal request to amend the City of Tomball's Comprehensive plan from Rural Residential and Business/Industrial to Medium Density Residential. This request is associated with a request for annexation, rezoning, and preliminary plat application for proposed Alexander Estates.

The basis for the request is to allow for a residential development located at the northeast corner of Hufsmith-Kohrville Road and Spell Road. The property consists of 70.35 acres and is largely undeveloped. The proposed development, Alexander Estates, consists of 128 single family residential lots, with a typical lot size of 13,500 sq ft.

Below I have addressed the City's prerequisite questions for a proposed map amendment to the Comprehensive Plan:

- Will the proposed map amendment enhance the City economically?

  The proposed 128 single-family residential lots, with a typical size of 13,500 square feet will add to the City's inventory of mid to large lot residential subdivisions. The new lots will add to the City's tax base, thus generating revenue for the City of Tomball.

- Will the proposed map amendment enhance the City aesthetically?

  The proposed subdivision, with lots significantly larger than the abutting subdivision to the north of the tract, will be an aesthetically pleasing addition to the City of Tomball. In addition to the large lot sizes, the homes proposed for the development will be superior in construction materials and design.

- Is the proposed map amendment consistent with the City's Goals, Objectives, and Actions?

  The proposed development will represent an efficient land use philosophy that is fiscally sustainable, and enhance quality of life. It will promote a cohesive land use pattern, encourage rural heritage and lifestyle, ensure high quality, safe, cohesive, and will be an attractive neighborhood which will meet the needs of present and future resident. The development will

also be a distinctive, attractive neighborhood with a strong sense of place, and emphasize smart growth principles, and preserve and enhance the quality and character of Tomball

- Is the proposed map amendment a better use of land/property, both for the owner/developer and the City, than that recommended by the Plan?

  As the property is generally located in a residential area, the Business/Industrial land use classification would not be a compatible land use. With regards to the residential land use designation of the property, the proposed lot sizes are larger than the lots north of the subject tract but smaller than the minimum 1 acre lot size called for by the Comprehensive Plan. Therefore, the proposed lot sizes of 13,500 square feet will be both compatible and a better land use than the current Rural Residential land use designation for the property.

- Will the proposed map amendment impact adjacent residential areas in a positive or negative manner?

  The proposed map amendment will impact adjacent residential areas in a positive manner. As mentioned above, the lot sizes will be larger than nearby newly developed subdivisions. Additionally, the development plans for the property will result in a product which is not only of superior quality, but will also be an aesthetically pleasing development for the area.

- Will the proposed map amendment have adequate access; have considerations been made for roadway capacity, ingress and egress, traffic impact?

  Appropriate considerations have been taken in the design of the proposed subdivision to ensure the minimal impact on nearby roadways. Specifics of the access points and traffic impact considerations will be further detailed at the time of subdivision platting.

- Are uses adjacent to the proposed map amendment similar in nature in terms of appearance, hours of operation, and other general aspects of compatibility?

  The property is located in a generally residential area. The property to the south of the tract (outside Tomball's ETJ) is a residential subdivision, and the property to the east and west is undeveloped. The property to the north is also platted as residential.

- Does the proposed map amendment present a significant benefit to the public health, safety and welfare of the community?

  The proposed map amendment will result in residential development of undeveloped property which will blend well with nearby uses. As previously mentioned, the lot sizes will be larger than recently approved residential developments in the area and the residential home product will be superior in quality and design.

Attached to this request for reference is the current recorded plat for the property, as well as a vicinity map and a copy of the proposed plat of Alexander Estates.

Please feel free to contact me if you have any questions or would like any additional information.

City of Tomball (Rodney),

I am writing this email and in reference to Zoning Case P14-102 and P14-118. I live at 10930 S Country Club Green Drive, Tomball, Texas, 77375, which is within the 200 feet zone of the property that is in question. I would like to express that I am 100 percent AGAINST the requested rezoning.
The waste management company that purchased the land is going to cause the property value and quality of life for the surrounding residence to diminish. The desirability of the neighborhood will diminish as well.

Please let me know what I need to do in order to ensure that I get a vote in this matter.

Topic:

Adopt, on Second Reading, Ordinance No. 2014-21, an Ordinance of the City of Tomball, Texas, Amending Its Zoning Ordinance by Changing the Zoning District Classification of Approximately 70.36 Acres of Land, Legally Described as All of Proposed Alexander Estates Subdivision and Being a Partial Replat of Tomball Greens Unrestricted Reserve "C" as Recorded in F.C. No. 440128, H.C.M.R. out of the Elizabeth Smith Survey, A-70 Harris County, Texas, within the City of Tomball, Harris County, Texas; from the Agricultural District to the Single-Family Residential-9 District; Said Property Being Generally Located East of Hufsmith-Kohrville Road, North of Spell Road; Providing for the Amendment of the Official Zoning Map of the City; Providing for Severability; Providing for a Penalty of an Amount Not to Exceed $2,000 for Each Day of Violation of Any Provision Hereof, Making Findings of Fact; and Providing for Other Related Matters

Background:

On April 16, 2014, the City of Tomball held a pre-plat meeting with Doug Eibsen and representatives from Jones and Carter, an Engineering, Planning, and Surveying firm, to discuss a proposed 128-unit, detached single-family subdivision known as Alexander Estates. The subdivision is generally located at the northeast corner of Hufsmith-Kohrville and Spell Roads and is approximately 70 acres in size. During the pre-plat meeting, Mr. Eibsen and Jones and Carter inquired into the process of annexing into the City limits. City staff informed those in attendance of the following:

- Annexation requests are handled through the City Secretary's office and if they wished to pursue annexation they would need to make their request directly to the City Secretary's office.

- If they were annexed, their zoning classification would automatically be established as Agricultural District per Section 6.1 of the Zoning Ordinance.

- Their proposed plat did not appear to meet the minimum requirements of the Agricultural District in regards to minimum lot size and building setbacks and they may want to consider changing to the plat to reflect Agricultural District standards or request a Rezoning at the time of annexation to a district which reflects the intent of their development.

Upon annexation on August 18, 2014, the subject site will be assigned a zoning classification of Agricultural District per Section 6.1 of the Zoning Ordinance. Because the proposed subdivision will require the site to be zoned Single-Family Residential-9 District to be able to construct the subdivision as desired, the property owners have submitted a Rezoning application requesting the property be rezoned from the Agricultural District to the Single-Family Residential-9 District. Additionally, the applicant was informed that the Single-Family Residential-9 District would not be compatible with the property's current Future Land Use designations of Rural Residential and Business/Industrial and that he could request that the Comprehensive Plan be amended. On June 9, 2014, the applicant submitted a request to change the Future Land Use designation of the subject site from Rural Residential and Business/Industrial to Medium Density Residential to make the Single-Family Residential-9 District rezoning request consistent with the Comprehensive Plan. The Comprehensive Plan amendment request will be heard as Comprehensive Plan Case P14-118.

The Planning & Zoning Commission heard this request on July 14, 2014, and unanimously voted to

recommend APPROVAL. On August 4, 2014, Council adopted Ordinance No. 2014-21 on First Reading.

BACKGROUND

On April 16, 2014, the City of Tomball held a pre-plat meeting with Doug Eibsen and representatives from Jones and Carter, an Engineering, Planning, and Surveying firm, to discuss a proposed 128-unit, detached single-family subdivision known as Alexander Estates. The subdivision is generally located at the northeast corner of Hufsmith-Kohrville and Spell Roads and is approximately 70 acres in size. During the pre-plat meeting, Mr. Eibsen and Jones and Carter inquired into the process of annexing into the City limits. City staff informed those in attendance of the following:

- Annexation requests are handled through the City Secretary's office and if they wished to pursue annexation they would need to make their request directly to the City Secretary's office.

- If they were annexed, their zoning classification would automatically be established as Agricultural District per Section 6.1 of the Zoning Ordinance.

- Their proposed plat did not appear to meet the minimum requirements of the Agricultural District in regards to minimum lot size and building setbacks and they may want to consider changing to the plat to reflect Agricultural District standards or request a rezoning at the time of annexation to a district which reflects the intent of their development.

On June 2, 2014, the City received a request for annexation for the subject site. On June 16, 2014, City Council approved a resolution declaring its intent to annex. Public hearings for the annexation are scheduled before City Council for July 7 and July 14, 2014 and the first and second readings of the ordinance to annex are scheduled for August 4 and August 18, 2014, respectively.

Upon possible annexation on August 18, 2014, the subject site will be assigned a zoning classification of Agricultural District per Section 6.1 of the Zoning Ordinance. Because the proposed subdivision will require the site to be zoned Single-Family Residential-9 (SF-9) District to be able to construct the subdivision as desired, the property owners have submitted a Rezoning application requesting the property be rezoned from the Agricultural District to the SF-9 District (Exhibit "E"). Additionally, the applicant was informed that the SF-9 District would not be compatible with the property's current Comprehensive Plan's (CP) Future Land Use (FLU) designations of Rural Residential and Business/Industrial and that he could request that the CP be amended. On June 9, 2014, the applicant submitted a request to change the FLU designation of the subject site from Rural Residential and Business/Industrial to Medium Density Residential to make the SF-9 rezoning request consistent with the CP. The CP amendment request will be heard as Comprehensive Plan Case P14-118.

ANALYSIS

The applicant is requesting that the property be rezoned from the Agricultural District to the SF-9 District. According to Section 16.1 of the Zoning Ordinance, the SF-9 District "is intended to provide for development of primarily low-density detached, single-family residences on lots of not less than 9,000 square feet in size, churches, schools and public parks in logical neighborhood units."

There are several land uses in the vicinity of the subject site. To the north are single-family residences in the Country Club Greens subdivision; to the south are Spell Road and single-family residences; to the west are Hufsmith-Kohrville Road, vacant land, a commercial use (CREACOM, Inc.), and a single-family residence; and to the east is vacant land. The SF-9 District appears to be consistent and compatible with the existing single-family residences and vacant land in the vicinity. The prima facie inconsistency and incompatibility of the request with the existing commercial use to the west appears to be minimized because of their separation by Hufsmith-Kohrville Road which is designated as a Major Arterial in the City's Major Thoroughfare Plan.

The subject site and the majority of the properties in the vicinity of the subject site are unzoned because they are either in the City's ETJ or not in the City limits/ETJ. However, the properties to the west are zoned Light Industrial District. According to Section 31.1 of the Zoning Ordinance, the Light Industrial District "is intended primarily for the conduct of light manufacturing, assembling and fabrication activities, and for warehousing, research and development, wholesaling and service operations that do not typically depend upon frequent customer or client visits. Such uses do require accessibility to major thoroughfares, major highways, and/or other means of transportation such as the railroad." The prima facie inconsistency and incompatibility of the request with the Light Industrial District to the west appears to be minimized because of their separation by Hufsmith-Kohrville Road.

The FLU map identifies the subject site as Rural Residential and Business/Industrial. The predominant FLU designations in the vicinity are also Rural Residential and Business/Industrial. To the north is Rural Residential; to the south is undesignated land because it is not in the City limits/ETJ; to the west are Rural Residential and Business/Industrial; and to the east is Business/Industrial. According to the CP:

- Rural Residential includes residential developments on minimum 1-acre lots that allows up to one house per acre lot. The intent is to provide for a rural lifestyle as well as to encourage appropriate development due to environmental constraints such as waterways, floodplains, and other features.

- Business/Industrial indicates where industrial and intensive employment activities should occur. Activities that will require unenclosed assembly, repair and/or storage and require heavy truck or rail transportation support are acceptable. Also included would be warehousing and distribution facilities, as well as offices and showrooms.

The SF-9 District appears to be consistent and compatible with the Rural Residential FLU designations to the north and west. Again, the prima facie inconsistency and incompatibility of the request with the Business/Industrial FLU designation west of Hufsmith-Kohrville Road appears to be minimized because of their separation by a major thoroughfare. The Business/Industrial FLU designation to the southwest and east may be compatible with SF-9 District if the Business/Industrial land uses are developed with the appropriate design standards (i.e. building setbacks, fencing, landscaping, etc.). Additionally, if the FLU designation of the property is changed to Medium Density Residential as requested in Comprehensive Plan Case P14-118 and per City staff's recommendation, the rezoning request will not be inconsistent with the CP.

ZONING CONSIDERATIONS

In making its recommendation regarding a proposed zoning change, the Planning & Zoning Commission shall consider the following factors:

A. Whether the uses permitted by the proposed change will be appropriate in the immediate area concerned, and their relationship to the general area and to the City as a whole.

The uses permitted in the SF-9 District appear to be compatible with the single-family residences and vacant land in the vicinity. The prima facie inconsistency and incompatibility of the request with the existing commercial use to the west appears to be minimized because of their separation by Hufsmith-Kohrville Road which is designated as a Major Arterial in the City's Major Thoroughfare Plan.

B. Whether the proposed change is in accord with any existing or proposed plans for providing public schools, streets, water supply, sanitary sewers, and other utilities to the area.

The proposed Rezoning is not anticipated to negatively impact any existing or proposed plans for providing public schools, streets, water supply, sanitary sewers, and other utilities to the area.

C. The amount of vacant land currently classified for similar development in the vicinity and elsewhere in the City, and any special circumstances which may make a substantial part of such vacant land unavailable for development.

There are numerous vacant properties elsewhere in the City zoned SF-9 District. There are no vacant properties in the vicinity zoned SF-9 District.

D. The recent rate at which land is being developed in the same zoning classification as the request, particularly in the vicinity of the proposed change.

There has been steady development City-wide in the SF-9 District.

E. How other areas designated for similar development will be, or are likely to be, affected if the proposed amendment is approved.

If the proposed Rezoning is approved, few, if any affects on other areas designated for similar developments are anticipated.

F. Any other factors that will substantially affect the public health, safety, morals, or general welfare.

The proposed Rezoning does not appear to negatively affect the public health, safety, morals, or general welfare.

G. Whether the request is consistent with the Comprehensive Plan.

The proposed Rezoning appears to be consistent and compatible with the Rural Residential FLU designations to the north and west. The prima facie inconsistency and incompatibility of the request with the Business/Industrial FLU designation west of Hufsmith-Kohrville Road appears to be minimized because of their separation by a major thoroughfare. The Business/Industrial CP designation to the southwest and east may be compatible with SF-9 District if the Business/Industrial land uses are developed with the appropriate design standards (i.e. building setbacks, fencing, landscaping, etc.). Additionally, if the FLU designation of the property is changed to Medium Density Residential, as requested in Comprehensive Plan Case P14-118 and per City staff's recommendation, the Rezoning request will be consistent with the CP.

PUBLIC COMMENT

Property owners within 200 feet of the project site were mailed notification of this proposal on July 3, 2014; one public comment was received in support of the request (Exhibit "F") as of July 8, 2014.

RECOMMENDATION

Based on the findings outlined in the analysis and zoning considerations sections of this staff report, City staff recommends **APPROVAL** of Rezoning Case P14-102.

Re: Request for Rezoning

Ms. Guerra:

This letter serves as a formal rezoning request. The property in question is undeveloped and is not currently zoned as it is within the City's Extraterritorial Jurisdiction (ETJ). We are requesting the property be annexed into the corporate limits of Tomball (see associated Annexation Request) and be subsequently zoned Single Family 9 District (SF-9).

The property is located at the northeast intersection of Hufsmith-Kohrville Road and Spell Road, and consists of 70.3574 acres. The property is currently platted as Tomball Greens, and the portion proposed for annexation and development is part of Unrestricted Reserve "C". The proposed development, Alexander Estates, consists of 128 single family residential lots, with a typical lot size of 13,500 sq ft. The proposed lot size exceeds the requested zoning districts minimum lot size of 9,000 sq. ft. The typical lot dimensions are 90' X 150', also exceeding the City's minimum requirements of 75' X 100' for the requested zoning district. Access to the site will be from Spell Road and site detention will be in the form of an amenity lake and associated pedestrian trails. It is not anticipated that the proposed development will adversely impact vehicular or pedestrian access in the area, traffic or roadway capacity.

This zone change request will be consistent with surrounding properties and developments in the area, as the property is surrounded on three sides with existing single family residential properties.

Attached to this request for reference is the current recorded plat for the property, as well as a vicinity map and the proposed subdivision plat of Alexander Estates.

Please feel free to contact me if you have any questions or would like any additional information. We appreciate your assistance and look forward to successfully zoning the referenced property.

Regards,

Harold Ellis, Planner

City of Tomball (Rodney),

I am writing this email and in reference to Zoning Case P14-102 and P14-118. I live at 10930 S Country Club Green Drive, Tomball, Texas, 77375, which is within the 200 feet zone of the property that is in question. I would like to express that I am 100 percent AGAINST the requested rezoning.
The waste management company that purchased the land is going to cause the property value and quality of life for the surrounding residence to diminish. The desirability of the neighborhood will diminish as well.

Please let me know what I need to do in order to ensure that I get a vote in this matter.

Approve Joint Resolution and Interlocal Agreement between the City of Tomball and Harris County Emergency Management regarding Updates to the Interlocal Agreement between Harris County and the City of Tomball regarding the Harris County Emergency Operations Plan for the Provision of Mutual Aid between Harris County and the City of Tomball during a Disaster Event, to which the City of Tomball is a Signatory, and Adopt, on First Reading, **Ordinance No. 2014-23**, an Ordinance Amending Chapter 22, Emergency Management, by Deleting Chapter 22 in Its Entirety and Adopting a New Chapter 22, Emergency Management; Establishing Program Response and Recovery Phases of Comprehensive Emergency Management; Acknowledging the Office of Emergency Management Director; Authorizing the Appointment of an Emergency Management Coordinator; and Providing for the Duties and Responsibilities of Those Offices; Identifying an Operational Organization; Granting Necessary Powers to Cope with All Phases of Emergency Management which Threaten Life and Property in the City of Tomball; Authorizing Cooperative and Mutual Aid Agreements for Relief Work between This and Other Cities or Counties and for Related Purposes; Repealing Ordinance No. 92-16, Passed, Approved and Adopted on October 19, 1992; Providing for Severability; and Making Other Findings Related Thereto.

Background:

The City of Tomball became a signatory to the Harris County Emergency Operations Plan by Ordinance No. 1992-16. The Tomball Office of Emergency Management participates with the Harris County Office of Homeland Security and Emergency Management (HCOHSEM) in updating the plan every two years. As the plan is improved, the City Council is requested to re-ratify the agreements and has continuously done so.

Harris County Office of Homeland Security and Emergency Management's request was presented to Council on July 21, 2014 for Council consideration to approve the proposed updates to the Interlocal Agreement between Harris County and the City of Tomball regarding the Harris County Emergency Operations Plan for the Provision of Mutual Aid between Harris County and the City of Tomball during a Disaster Event, to which the City of Tomball is a Signatory.

In preparing the documents for execution, City staff discovered a procedural error, in that Harris County had attached an Ordinance No. 92-16 containing the proposed upldates instead of an Ordinance to amend the City's original Ordinance No. 92-16. Ordinance No. 92-16 can only be amending through Council's adoption of a new ordinance.

The Joint Resolution, Interlocal Agreement, and Ordinance No. 2014-23 are presented to Council for consideration and approval. Council is asked to approve the Joint Resolution and Interlocal Agreement, then to adopt Ordinance No. 2014-23 on First Reading.

Upon its adoption, Ordinance No. 2014-23 will amend the City's original Ordinance 92-16 with the updates proposed by HCOHSEM and will replace Chapter 22 in its entirety.

Please Note: The recodification of the City's Code of Ordinances is currently underway; Chapter 22 will be renumbered as Chapter 14 in the recodified Code of Ordinances.

INTERLOCAL MUTUAL AID AGREEMENT

THE STATE OF TEXAS §
§
COUNTY OF HARRIS §

THIS INTERLOCAL AGREEMENT (the "Agreement") is made and entered into by and between the **City of Tomball, Texas** ("Entity"), acting by and through its governing body, and **Harris County, Texas**, acting by and through its governing body, Harris County Commissioners Court. This Agreement is made pursuant to chapter 791 of the Texas Government Code (the Interlocal Cooperation Act) and chapter 418 of the Texas Government Code (the Texas Disaster Act of 1975) to the extent it applies to this Agreement. This Agreement does not apply to "law enforcement assistance" provided, or "mutual aid law enforcement task forces" created, under Chapter 362 of the Texas Local Government Code.

RECITALS:

The Parties hereto recognize the vulnerability of the people, communities and schools to damage, injury, and loss of life and property resulting from natural or man-made catastrophes, riots, or hostile military or paramilitary action, and other emergencies.

The full and effective utilization of the resources available to Entity and Harris County is necessary for the prompt and efficient rescue, care, and treatment of persons victimized or threatened by disaster.

Chapter 791 of the Texas Government Code authorizes interlocal agreements between local governmental entities such as Entity and Harris County. Chapter 791 authorizes such entities to contract for emergency assistance, section 791.27; governmental functions and services, section 791.011, including police protection and detention services; public health and welfare; planning; administrative functions; and, other governmental functions in which the contracting entities are mutually interested, section 791.003(3), such as those provided in chapter 418 of the Texas Government Code.

Section 418.107(c) of the Texas Government Code provides that a political subdivision may render aid to other subdivisions under mutual aid agreements.

The Parties hereto desire to enter into an agreement to provide mutual aid consistent with the mutual aid and emergency assistance plans approved by their governing body.

NOW, THEREFORE, Entity and Harris County, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

TERMS:

I.

If Entity is a county or incorporated city, both Entity and Harris County shall each appoint an Emergency Management Coordinator to take all steps necessary for the implementation of this Agreement. If Entity is an independent school district, public junior college district, emergency services district, other special district, joint board, or other entity defined as a political subdivision under the laws of the State of Texas that maintains the capability to provide mutual aid, or organized volunteer group as defined in Section 418.004(5) of the Texas Government Code, Entity's chief, highest ranking officer, or Emergency Management Coordinator, as applicable, shall take all steps necessary for the implementation of this Agreement.

II.

It shall be the duty of each Party to formulate emergency management plans and programs that incorporate the use of available resources, including personnel, equipment, buildings, and supplies necessary to provide mutual aid and emergency assistance. If Entity is a county or incorporated municipality, Entity shall have an approved Emergency Management Program as defined by the Texas Division of Emergency Management.

This Agreement shall apply to the dispatch of emergency service responses by either or both Parties in response to a disaster as that term is defined in section 418.004 of the Texas Government Code, and in response to actual and imminent incidents that endanger the health, safety, or welfare of the public and require the use of special equipment, trained personnel, or personnel in larger number than are locally available in order to reduce, counteract, or remove the danger caused by the incident. This Agreement includes the provision of materials, supplies, equipment, and other forms of aid by and between the Parties including the staffing and equipping of emergency operations, and participation by personnel in exercises, drills, or other training activities designed to train and prepare for, cope with, respond to, recover from, or prevent the occurrence of any disaster.

In carrying out emergency management plans and programs, the Parties shall, insofar as possible, provide and follow uniform standards, practices and rules and regulations, including but not limited to the following:

- Warnings and signals for exercises or disasters and the mechanical devices to be used in connection therewith.
- Shutting off water mains, gas mains, and electric power connections, and the suspension of all other utility services.
- Selection of all materials, equipment or buildings used or to be used for emergency management purposes to assure that such materials and equipment will be easily and freely interchangeable when used by either Party hereto.
- The conduct of civilians and the movement and cessation of movement of pedestrian and vehicular traffic prior to, during, and subsequent to exercises or disasters.
- The safety of public meetings or gatherings.

As further set forth below, each Party shall coordinate the emergency responses within its scope of responsibility under this Agreement.

Either Party, when requested to provide mutual aid or emergency assistance, may take such action as is necessary to provide and make available the resources covered by this Agreement in accordance with the terms hereof, provided however, the Party rendering aid (the "Responding Party") to the Party receiving assistance (the "Requesting Party") may withhold resources to the extent necessary to provide other necessary governmental functions for itself.

When a request for emergency assistance is received, law enforcement, fire, emergency response personnel, and other resources shall be subject to the command and control of their respective agencies. However, the respective agencies shall coordinate their emergency responses and resources through the emergency management authorities of the Requesting Party. Any request for aid shall specify the amount and type of resources requested. However, the Responding Party shall determine the specific resources furnished. The personnel and resources deployed by the Responding Party shall report to the officer in charge of the incident and report through the incident chain of command. The Responding Party shall be released by the Requesting Party when the reserves of the Responding Party are no longer required or when the resources are needed within the Responding Party's normal emergency service area.

If Entity is a county with an Emergency Management Coordinator, each request for mutual aid assistance shall be made through the Emergency Management Coordinator of the Requesting Party to the Emergency Management Coordinator of the Responding Party.

If Entity is an incorporated municipality without an Emergency Management Coordinator, independent school district, public junior college district, emergency services district, other special district, joint board, or other entity defined as a political subdivision under the laws of the State of Texas that maintains the capability to provide mutual aid, or organized volunteer group as defined in Section 418.004(5) of the Texas Government Code, Entity's requests for mutual aid assistance shall be made through Entity's chief or highest ranking officer to Harris County's Emergency Management Coordinator, Sheriff, Fire Marshal, Public Health Director, or an elected Constable. Harris County's requests for mutual aid assistance shall be made through its Emergency Management Coordinator, Sheriff, Fire Marshal, Public Health Director, or an elected Constable to Entity's chief or highest ranking officer.

In the event of rapidly developing emergencies occurring within the jurisdiction of the Requesting Party and near the Responding Party's boundary, the Responding Party's law enforcement and/or emergency responders will respond as they are able, without the prior request of the Requesting Party, as provided by applicable law. The Responding Party's emergency response units will establish control of the scene. The Responding Party and staff representing other governmental entities requested to provide mutual assistance will provide assistance and resources as available in accordance with the existing emergency management plans and programs. The Responding Party's resources will remain on the scene as needed. In such event this Agreement shall be in effect.

When mutual aid assistance will be provided for more than 12 consecutive hours, the Requesting Party shall, prior to the expiration of the 12th hour, confirm in writing to the Responding Party that the Requesting Party desires continued mutual aid assistance from the Responding Party. Notwithstanding the above, if, due to the nature of the emergency, disaster, or other condition requiring mutual aid, the Requesting Party cannot confirm its request for continued mutual aid assistance before the expiration of the 12th hour, the written request must be sent as soon as practicable, but in all cases, within 90 days of the verbal request.

III.

Nothing in this Agreement shall be construed as making either Party responsible for the payment of compensation and/or any benefits including, but not limited to, health, workers' compensation, disability, death, and/or dismemberment insurance for the other Party's employees, contractors, vendors, or other workers. Nothing in this Agreement shall be construed as making either Party responsible for the payment of property, motor vehicle, or other insurance, on the other party's equipment, buildings, supplies, or other property or assets.

IV.

Notwithstanding Section III of this Agreement, if a Party hereto requests mutual aid assistance that requires a response that exceeds 12 consecutive hours, the Requesting Party shall reimburse the Responding Party its actual cost for providing mutual aid assistance to the Requesting Party after the first 12 hours, including costs for personnel, operation and maintenance of equipment, damaged equipment, food, lodging, and transportation, provided that, in no event shall the cost for a service or item be greater than the rate, as such rates are amended from time to time, set by the Federal Emergency Management Agency (FEMA) for the substantially same service or item. FEMA rates are available at http://www.fema.gov/schedule-equipment-rates The Parties mutually agree that a Responding Party shall not be entitled to and will not seek reimbursement from a Requesting Party for either: (a) assistance provided that does not exceed 12 consecutive hours or (b) for assistance provided during the initial 12 hours of the response.

Each Party hereto agrees to comply with such statutory and constitutional provisions, or other contracts, rules, regulations, ordinances, guidelines, procedures, or conventions, as apply to it with regard to the appropriation of funds for the payment of contractual obligations. Each Party hereto understands and acknowledges, that funds for the payment of Harris County's obligations inuring under or out of this Agreement, irrespective of the nature thereof, are available to the extent such funds are appropriated by Order of Harris County Commissioners Court, and certified as provided by law, by the Harris County Auditor, as available from current funds set aside in the annual budget in which the expenditures are incurred before expenditure of such funds. It shall be the responsibility of each Responding Party to assure itself that sufficient funds have been allocated to pay for the services provided. In the event Harris County fails to appropriate sufficient funds to perform its obligations arising out of or in relation to this Agreement, Entity acknowledges and agrees that its sole and exclusive remedy is to terminate participation in this Agreement.

The Responding Party is responsible for the work it performs under this Agreement. No later than the 90th day after services are performed under this Agreement, the Responding Party shall submit an invoice to the Requesting Party. Supporting documentation as mutually agreed upon

will be supplied. The Responding Party shall maintain auditable records verifying each service or item and the dates provided. The Responding Party shall warrant that all billing data submitted is complete and truthful. The Requesting Party will review each invoice and statement and modify it as necessary and appropriate and, thereafter, forward the same to the appropriate official, in the case of Harris County to the Harris County Auditor, for payment. Requesting Party reserves the right to withhold payment of any questionable charges or expenses, including, but not limited to, any charges in excess of the rate set by FEMA for the substantially same service or item. Should the Requesting Party determine that any payment has been made to a Responding Party in excess or in error for any reason whatsoever, Requesting Party may recoup from the Responding Party the amount made in excess or in error. Within 90 days of receipt of a request for repayment of an amount made in excess or in error, the overpaid Party shall return the amount paid in excess or in error.

V.

Neither Party to this Agreement waives or relinquishes any immunity or defense on behalf of itself, its officers, employees, agents, and volunteers as a result of its execution of this Agreement and the performance of the covenants contained herein. Furthermore, neither the terms of Section III and Section IV, nor any other provision in this Agreement, shall prohibit either Party from seeking financial aid or in-kind reimbursement from any state or federal agency or program.

Pursuant to section 421.062 of the Texas Government Code, the Responding Party is not responsible for any civil liability that arises from any act or omission made within the course and scope of its functions to provide a service under this Agreement that is related to a homeland security activity. The Parties understand and agree that the Requesting Party does not assume civil liability under any theory of law for the actions of the Responding Party in providing services hereunder.

If the equipment is damaged or destroyed, the owner may seek recovery through insurance acquired by the owner, reimbursement as set forth in Section IV, or through any other resources available to the owner.

VI.

This Agreement shall terminate on the last day of February of each year and shall automatically renew for a one-year term, subject to continued funding and certification of funds as referenced in Section IV, unless the governing body of either Party gives notice received no later than the preceding December 1 of its desire to terminate the agreement. Unless notice of termination is received by December 1, the agreement shall continue in force and remain binding subject to funding and certification as referenced in Section IV. Notwithstanding the above, the Emergency Management Coordinator of Harris County may suspend the operation of this agreement at any time during a term upon notice to the other party.

Background:

Resolution No. 2014-19 orders the Special Local Option Election, which will be held on Tuesday, November 4, 2014.

Early Voting will be held October 20-24 and October 27-31, 2014.

The Resolution also designates the polling places, appoints the election officers, authorizes the use of the eSlate Voting System, and authorizes two 12-hour days of early voting on Tuesday, October 21, and Tuesday, October 28, 2014.

This Local Option Election will be held concurrently with Harris County's November 4, 2014 election. Early voting for the City will be at City Hall; early voting for the County will be at Public Works. Election Day voting will be conducted at City Hall for both entities, in the Council Chambers.

The contract between Hart Intercivic and the City includes personnel training, equipment testing, programming, on-site support, tallying, maintenance/repairs, software upgrades and certification services for the City's special election. The anticipated expenses for the November 4, 2014 election are approximately $14,000, which includes additional expenses due to the requirement for ballots, election materials, and notices to be translated into Mandarin (because Tomball is located in Harris County, we are required to conduct our elections in English, Spanish, Vietnamese, and Mandarin). Funds budgeted for elections in the FY 214-2015 budget should be sufficient to cover anticipated costs for the November 2014, May 2015 and possible June 2015 runoff elections.

The usual provision has been included in Section 2 to authorize the City Secretary to select an Acting Presiding or Acting Alternate Presiding Judge from the qualified pool of Election Clerks if either the

Presiding Judge or the Alternate Presiding Judge is unable to perform his/her assigned duties for whatever reason.

A copy of the petition is provided for City Council; please note birthdates have been redacted for the protection of the individual voters.

The City of Tomball will be acquiring fourteen acres of land through donation to develop a new City park that will serve to expand recreation opportunities to outlying areas of the community. The land will be available for use by the public, as well as for any future City events. On this land, the City plans to construct a variety of facilities that will promote outdoor activities, healthy lifestyles and a sense of community through active plan and leisure. Planned facilities include soccer fields, walking trails, playground equipment, picnic areas, a concession stand, restrooms, a pavilion and a fishing pier over an existing pond.
The catalyst for the development of the park is the forthcoming donation of playground equipment to be installed through a KaBOOM! Community Build effort. The 501-(C)(3) non-profit organization KaBOOM! will facilitate construction of a volunteer-built playground on site. The idea behind KaBOOM! is to allow the people of the city to work together to create a fun place for children of all ages to enjoy. By using KaBOOM, the city hopes to encourage the community to participate in the construction of the playground, which will enable the citizens to feel a strong sense of community through the project.
Phased development of the park will continue with the enhancement of existing features such as enhancement of the 0.4 acre pond including a fishing pier, repurposing the existing barn for indoor recreation opportunities and equipment storage; and conversion of existing hay sheds into picnic shelters.
Planned new facilities will include development of 9 soccer fields to offer recreation not currently available in the City of Tomball. Walking trails are planned throughout the park with pedestrian connections to the adjacent Samuel Matthews County Park on the north boundary, thereby bolstering a regional recreation opportunity through an interlocal agreement between the City and Harris County. An optional expansion of parking on the south end of the County Park can provide additional parking space for both parks to accommodate sports events and other recreational activities.

Geographic Distribution

Describe how the project will improve the geographic distribution of park and recreation lands and facilities. Identify if this is the first public park in applicant's jurisdiction or intended service area; or what significantly new and different park and recreation opportunities will be provided at the project site. Specify Plan or public input documentation in support of the first park, or new and different opportunities.

The City currently maintains and operates four City parks with a total of approximately 25 acres of park land. These parks include baseball fields, basketball courts, tennis and volleyball courts, as well as picnic areas, playgrounds and swimming opportunities. Broussard Park will offer a significant increase in available park land and will become the largest facility in the community. The park will offer the first soccer fields available in the community with 9 youth-sized fields, two of which will be constructed with artificial turf to accommodate tournament-level play.

Included in the acquisition are a gazebo, a large barn and several hay sheds which are all in excellent condition. The barn and gazebo can be utilized for private parties, special events, picnics and more. The hay sheds will be modified to become picnic shelters, incorporating a practice of re-use while honoring the history and tradition of the agricultural land use in the area.
The park will provide the only City recreational facility within a 1-mile radius that will serve a rapidly developing area on the northeast side of Tomball that will also serve a nearby 500+ residential community that is currently under the construction process.

Explain how the project improves park and recreation opportunities for physcially/mentally challenged citizens which exceed the federal and state required accessibility standards.

The City of Tomball will meet all federal and state accessibility standards.

Does the project provide for the renovation or adaptive reuse of existing obsolete lands or facilities?

◉ Yes ○ No

Save & Continue Editing Submit

If yes, state the age and condition of each of the facilities proposed for renovation. Describe the proposed renovation actions for each of the obsolete facilities.

The property has been a utilized as a farm/ranch for much of the last century and is primarily composed of fenced pastures. Existing structures include a barn built around 2008, four hay sheds, an approximate 1,600 square foot house, a gazebo and a 0.4 acre stock pond. The structures area in good condition and will be repurposed as amenities in the future park.
Existing pond will be reused as a natural water feature, which will be available for fishing, waterfowl watching, and a natural habitat area. The existing pasture land will be renovated and used for athletic fields, playgrounds, trails and passive recreation space. Additionally, the existing barn will be renovated and used for indoor recreation, private parties, community events and equipment storage. The City is exploring opportunities for utilization of the farm house as an expansion of recreational space, or possible Parks and Recreation offices.

Sustainable Park Design

Broussard Park will be designed to limit the impacts of development through a variety of tools and design elements that will address storm water runoff, sedimentation and reuse of materials/facilities. Management of storm water runoff will be accomplished through the use of dry-land detention in conjunction with retention facilities to control peak flows on site. Sedimentation and overall water quality will be managed through the use of vegetative bio-swales to capture sediments from parking lots and reduce runoff through absorption and evapotranspiration. Reuse of existing structures will allow for development of recreation facilities while lessening the park's carbon footprint and amount of material that would otherwise end up in at a waste management facility. The City will explore opportunities for permeable paving in the parking areas and potential rainwater harvesting during the design process.

Linkage

Describe how the project provides linkages via trail to other public parks and conservation areas.

Save & Continue Editing Submit

Broussard Park hiking/walking trails will tie directly into existing trails at Harris County Samuel Matthews Park located in Precinct 4 Harris County. Potential vehicular access will be explored along with a potential shared parking area that effectively will create a regional park facility and magnify the recreation opportunities in the area.

Samuel Matthews Park is a six-acre facility with one lighted softball field, one lighted basketball pavilion, one unlighted basketball court, one volleyball court, a barbecue pavilion, a community building, a playground, picnic tables, barbecue grills, a 1/3-mile paved trail, and rest room facilities.

Meeting the Texas Parks & Wildlife Department Goals

Identify how the project supports the goals of TPWD's *Land and Water Resources Conservation and Recreation Plan*. To view the agency plan, click here (8.48 MB).

Save & Continue Editing Submit

One of the four goals of TPWD is to “Increase access to and participation in the outdoors”. This is one of our main goals with the construction of the park. With a rapidly growing city, Tomball has become more urban than ever. We hope to enhance the variety of outdoor activities that are critical to the good health and quality of life of our citizens. The park will be an easily accessible and affordable outdoor facility that will endorse recreational and educational opportunities to people of all walks of life, especially youths. The soccer fields will serve as educational opportunities for children and promote good sportsmanship attitudes. The pond will be open to recreational fishing and nature watching. The walking trails encourage good health by providing miles of open tracks for active runners or those who just want to take a stroll. The park will secure approximately 14 acres of land for recreation and greenspace in perpetuity in an area that is rapidly being developed. The park will serve as a value component of the larger urban ecosystem and provide ecological services to contribute to overall water quality, heat island management, wildlife habitat and storm water runoff reduction.
Park components such as bio-swales, permeable paving options and rainwater catchment systems will be used not only for their environmental contributions, but also serve as educational tools through the use of signage throughout the site that illustrates the value of each component in an effort to “Educate, Inform & Engage Texas Citizens in Support of Conservation & Recreation”.
The linkage to the nearby Samuel Matthews County Park provides even more outdoor recreational activities. The park includes basketball courts, a softball field, a volleyball court, barbeque grills, picnic tables and a playground. We hope that by offering our community a variety of outdoor facilities, we will increase their participation and enjoyment of the outdoors while also inspiring good health and well-being.

The project site is home to a variety of improved and native pasture grasses, wildflowers and native trees. Some invasive Chinese Tallow trees have taken become established along the south boundary that will be ultimately replaced with native species. Local wildlife includes skunks, foxes, frogs, armadillos, various birds, and white-tailed deer. There are no known valuable, vulnerable, rare, threatened or endangered wildlife in the project area.

The unnamed dry creek/drainage ditch running through the property is approximately 1,000 linear feet long and 23 feet wide within the property boundaries. The creek does not support a continuous flow of water. The creek flows in an easterly/northeasterly direction and ultimately connects to Boggs Gully, a tributary eventually leading to Spring Creek.

Mitigating Measures for Adverse Impacts

Adverse impacts may have short-term or long-term effects. They should be identified as such and explained.

Adverse impacts which cannot be mitigated should be identified and discussed. You may not be able to mitigate every adverse impact, but each one should be considered and weighed against the effects considered beneficial to the community and environment.

For example:

- The utilization of erosion control devices to prevent soil run-off during construction.
- The routing or re-routing of vehicles or the installation of traffic controls to regulate increased traffic to, from, and around the project area.
- Replacement/re-establishment of specialized fish, vegetation, or wildlife habitat which will be lost or partially lost as a result of the project's actions.
- Relocation of persons or businesses located within the project area(s).

Erosion control devices will be installed prior to construction in order to prevent silt runoff from leaving the site during construction. Erosion control devices will be routinely maintained by the Contractor and inspected by City staff. Probable erosion control devices include, but are lot limited to, silt fence, stabilized construction entrances and the reestablishment of disturbed areas.

A traffic control plan will be prepared and implemented for construction traffic arriving and leaving the site as well as for the offsite improvements necessary to provide permanent safe access to the proposed site.

Describe any and all alternatives considered for the proposed Project. The alternative of "no action" must be specifically addressed. Also discuss the basis for rejection of any/or all alternatives.

Estimated Land Value Letter

All projects proposing the acquisition of land must submit a valuation letter from a real estate professional stating the approximate value of the subject property. The purpose of this requirement is to:

- ensure that enough money is budgeted to acquire the property by purchase
- ensure the amount of match is available for property to be acquired by donation, or bargain sale.

In either case, the cost estimates for property acquisition are very important. If property values are estimated below the budgeted amount and the land is to be donated, the applicant will be required to supplement the match amount to offset the deficit.

On the other hand, if the property is to be purchased and the appraised value turns out to be higher than the estimated value, the applicant may not be reimbursed above that amount proposed in the application and approved in the grant.

Adopt, on First Reading, Ordinance No. 2014-28, an Ordinance Altering the *Prima Facie* Speed Limits Established for Vehicles under the Provisions of §545.356, Texas Transportation Code, upon the Basis of an Engineering and Traffic Investigation, upon Certain Streets and Highways, or Parts Thereof, Within the Corporate Limits of the City of Tomball, as Set Out in This Ordinance, and Providing a Penalty of a Fine in an Amount Not to Exceed Two Hundred Dollars ($200.00) for the Violation of this Ordinance

Background:

On July 10, 2014, Public Works staff contacted the Houston District Traffic Engineering Office of the Texas Department of Transportation (TxDOT) to express concerns regarding the posted speed limits along FM 2920 through the City of Tomball. The basis for the concerns were that continued growth and development along FM 2920 through Tomball was contributing to increased traffic volumes and adding to the number of driveway connections along FM 2920, and that these factors may increase the potential for vehicle accidents given current posted speed limits.

TxDOT conducted a Speed Zone Study, which has warranted certain revisions to the posted speed limits along sections of FM 2920 through Tomball, and has provided the City with a set of Speed Zone Strip Maps and a suggested Speed Zone Ordinance containing the recommended speed zones for FM 2920 through Tomball. Once the City of Tomball executes the required ordinance, TxDOT estimates the new speed limits to be posted in approximately 30 days.

The recommended revisions include the following speed zones;

- FM 2920 from the west city limit of Tomball to the southbound frontage road of SH 249 (1.565 miles), the speed limit shall be 45 MPH (no change);
- FM 2920 from the southbound frontage road of SH 249 to the intersection of Snook Lane (2.225 miles), the speed limit shall be 30 MPH (S. Peach to Snook Lane currently 45 MPH);
- FM 2920 from the intersection of Snook Lane to the east city limits of Tomball (0.514 miles), the speed limit shall be 45 MPH (east of Persimmon currently 50 MPH);
- The ordinance also establishes the school zones for Tomball Intermediate School and Concordia High School as 20 MPH when flashing.

Attached for Council's review are (1) TxDOT Notice of Speed Study Recommendation 080714, (2) TxDOT Suggested Speed Zone Ordinance No. 2014-28, and (3) Speed Zone Strip Maps 5750A - 5750B.

At this time, City staff recommends September 8 (Special meeting) and September 15 (Regular meeting), 2014 as the dates for the public hearings on the proposed tax rate; these dates are dependent on the date Harris County provides the certified tax roll and we are able to publish the notice of effective tax rate.

Should there be an additional delay in receiving the certified tax roll, the dates may have to be changed in order to meet the publication deadlines.

CITY OF TOMBALL

Office of the City Manager

Gretchen Fagan
Mayor

To: Honorable Mayor and City Council
From: George T. Shackelford, City Manager
Subject: Budget Memo – City Manager's Proposed FY2015 Budget
Date: August 13, 2014

As required in Section 8.03 of the Tomball City Charter, please find attached the proposed budget for fiscal year 2014-2015 (FY2015). The budget is a planning tool, providing guidance and direction to City staff for the upcoming budget year.

City staff members responsible for preparation of the proposed budget continue to use a conservative approach in the budgeting process. This approach has served us well as revenue projections and spending are well within the current budget. We continued this conservative approach in preparing the FY2015 Budget. The staff will also continue to look for more cost-effective ways of doing business while providing a high level of service to our citizens.

FY2015 Proposed Budget

The total proposed budget for FY2015, including all funds and both cash and bond funding for capital projects, totals $39,119,056 Total budgeted ending fund balances of $51,395,534 provide reserve levels of 157% of operating expenditures which exceeds the Charter requirement of 25%.

General Fund Overview

Revenues for FY2014 will be approximately $19,064,541 or $1,974,994 more than budgeted. This is primarily due to increasing sales tax revenues. A very conservative estimate of revenues for FY2015 indicates $19,378,316 which is consistent with projected revenues for FY2014.

Operating expenditures for FY2014 are projected to come in approximately $180,852 less than budget. This is primarily due the departments consciously working to hold costs down in the current economic climate. Proposed FY2015 expenditures are $17,003,736 which is $1,382,607 more than FY2014, mostly due to a number of one time only supplemental programs.

Preliminary assessed values provided by the Harris County Tax Appraisal District (HCAD) are incomplete due to the large amount of value that is still under protest. The actual tax rate cannot be adopted until the City receives the calculated effective tax rate from Harris County;

however, a total tax rate of $0.341455 is recommended for the proposed budget. This is the same total tax rate as last year.

Personnel

In an attempt to maintain a competitive salary and benefits for employees, the City Council approved preparing a full salary survey and job description review for city employees. The cost to implement the plan to get all employees in their proper range is $219,184 city-wide. In addition, to stay with inflation, a 3% percent salary adjustment is proposed in FY2015 with a total estimated cost of $340,116. Our initial rate quote for major medical was a 20.0% increase, but we were able to reduce that number down to an 8.5% increase after going through a request for proposal process. We will be staying with our current carrier, Blue Cross Blue Shield; however dental will be changing companies to Aetna.

The Texas Municipal Retirement System has indicated that a 9.3% increase in the City's contribution is necessary for the upcoming fiscal year.

Additionally funded in this proposed budget is one new Records Specialists in the Police Department.

Supplemental Items

During the budget preparation and workshops, a variety of supplemental projects were identified as priorities and incorporated into the budget document. Those proposed expenditures are projected in the budget document and range from technology, safety, downtown and Four Corners redevelopment, and a generator for the North Wastewater Treatment Plant. The total supplemental projects this fiscal year is $1,740,494.

Enterprise Fund Overview

Revenues for FY2014 are projected to be $11,199,500 which is $222,000 higher than budgeted. The water sales revenues for FY2014 are projected to be level with budget. Operating expenses for FY2014 are projected to come in approximately $82,275 less than budget.

Projected revenues for FY2015 are $11,200,000 with expenses estimated at $8,941,449. The Enterprise Fund is budgeted to maintain a very strong ending fund balance in FY2015 of $19,713,682 which will provide reserves of 221% of operating expenses. Net Operating Revenues provide coverage of 172% on system supported debt. These numbers help the city maintain its strong bond rating.

The water, sewer and gas rates will remain the same for residential and commercial customers for FY2015.

Debt Service Fund Overview

The FY2014 ending fund balance in the Debt Service Fund is projected to be $2,661,853 which is more than budgeted. The ending fund balance for FY2015 is an estimated $3,431,523 and represents a reserve level of 93% of proposed debt service expenditures. The City's policy for debt service reserves targets a reserve level of 25% of the next year's debt service requirement.

Our high reserve levels give us some flexibility to issue debt to facilitate projects proposed in the Capital Improvement Plan. Early payment of the 2011 fire truck will be accomplished saving approximately $85,000. The debt payment for the fire truck payments will remain for the purchase of a new fire truck in 2015.

Standard & Poor's rating agency upgraded the City's bond rating from AA- to AA+ this past year. This was based, in their opinion, the City's strong economic and financial position.

Capital Projects Fund

The city will make application to H-GAC this fiscal year for major improvements to FM2920 (Main Street) from the downtown area to Four Corners. The city has appropriated additional funding in order to complete this project. Medical Complex Drive Segment 3 continues to be under construction with an anticipated completion date of May 2015. As soon as all the right of way is acquired, construction will begin on the M121W drainage project.

Hotel / Motel Tax

The Tourism Advisory Committee continues to meet quarterly and have reviewed a number of projects and activities. The Marketing Director continues to promote and make the City of Tomball name more prevalent in social media markets. A strong fund balance of $197,577 is still being maintained.

Summary

The City of Tomball was recently notified that it will be receiving the Platinum Leadership Award from the State Comptroller's Office. This is the highest level of transparency award given by the State Comptroller. The staff appreciates the time and effort the Council has taken to study and review the proposed budget document. The proposed budget is a workable document and will provide the citizens a strong quality of service that they deserve. The City staff involved in the preparation of the budget has done an excellent job led by Finance Director Glenn Windsor. The entire City team is dedicated to providing a high level of customer service to the Citizens of Tomball and pledges our efforts to that end.

Respectfully submitted,

George T. Shackelford
City Manager

Preliminary Report of Appraised & Taxable Values
(Prior to Hearings)
Tax Year 2014
May 9, 2014

Honorable Gretchen Fagan
Mayor
City of Tomball
401 Market St
Tomball TX 77375-4697

Dear Mayor Fagan:

The preliminary information on appraised and taxable values for 2014 may be useful to you for testing purposes. If you are an ISD, City, Harris County or College district assessor please keep in mind the preliminary rolls do not replace the certified or uncertified estimate that you received in April. **The preliminary roll values should not be compared with the values contained in the estimate. The preliminary data does not take potential hearing loss, late exemption and ag-use applications, or correction motion value loss into account. This report is not our official value estimate and only summarizes still incomplete values in appraisal records. The main purpose of the preliminary data is for testing and formatting for the jurisdiction.**

Initial Appraised Value	$1,528,768,106 (excluding Categories J & L)
Initial Taxable Value	$1,254,510,188 (excluding Categories J & L)

The attached recap report summarizes your preliminary 2014 data. Valuation is currently incomplete on personal property categories J and L. Our best estimate of your 2014 utility personal property Category J values from Pritchard and Abbott, Inc. will be made available to you when valuation is complete. Preliminary 2014 personal property data Category J and the remainder of Category L values will be made available when valuation is complete.

Informal meetings with property owners are already under way, and the appraisal review board begins holding 2014 hearings on May 12, 2014. To assist you in estimating value loss due to hearings, we will periodically prepare a series of printouts that will be furnished to your tax assessor and will schedule a series of briefings for assessors.

When values are reduced through the protest or online hearing process the hearing determination will be reflected either in the certified roll or in a subsequent correction roll. Most protests are determined before the appraisal roll is certified and their results will be reflected in the certified roll. However, the law permits a variety of late protests and correction motions that may result in changes to your 2014 values for many years to come.

Additionally, a number of circumstances may result in further reduction of your values:

Late-filed exemption applications. While in most circumstances property owners must apply for the exemption prior to April 30, the law provides for a variety of late-filed exemptions. These can result in reductions not reflected in this estimate. For example, if your jurisdiction grants the freeport exemption, you should be aware that a property owner can apply for the exemption at any time prior to the date the appraisal review board approves the appraisal records. A more common situation involves residence homestead exemptions. A person can apply for a residence homestead exemption until one year after the delinquency date for the year in question. Consequently, residence homestead exemptions for 2014 can be claimed at any time prior to February 1, 2016. Over-65 and disability exemptions for the year can be claimed up to one year after the date of the person or the property first qualified for exemption, and the exemption will apply for the entire year. Application for special agricultural or timber valuation can be filed until the date the ARB approves the 2014 appraisal records.

Results of appeals of appraisal review board decisions. A property owner who disagrees with an ARB determination on a protest or correction motion may appeal the decision to the district court, or in some cases through binding arbitration or the State Office of Administrative Hearings.

Depending on the complexity of the litigation, resolution may take several years. If the court reduces the owner's appraised value or grants an exemption, the result will be certified to the jurisdiction within 30 days of the date the judgment is entered.

Please do not hesitate to contact me or your jurisdiction coordinator if you have questions regarding this information or other matters affecting appraisal district operations.

With kindest regards,

Sands L. Stiefer, R.P.A.
Chief Appraiser

Re: Increase in Appraisal Values,

Dear Mayor and Council,

In HCAD's March Board Meeting, a presentation was made on the changing values on property within Harris County. This presentation was broken down to the three major property groups, Residential, Commercial and Industrial and the overall percentage of appraised value is increasing significantly. Of the 1.7 million parcels of property in Harris County, there are approximately 950,000 total single family homes with increasing appraisals of 16.6%. Homes with values of $250,000 and up are experiencing a 20% increase. Commercial values are increasing approximately 20% with significant fluctuation in office buildings, apartments and warehouses. The increase in Industrial properties is more modest and there is much diversification across Harris County. I am including three maps (residential, commercial & residential & commercial combined) specifically for your city which should provide your City Council a good visual of the changing property values that are now being delivered to your property owners. An interesting observation is the total tax base for single family properties in Harris County at the end of 2012 finally regained the losses experienced beginning in 2009 with the economic downturn.

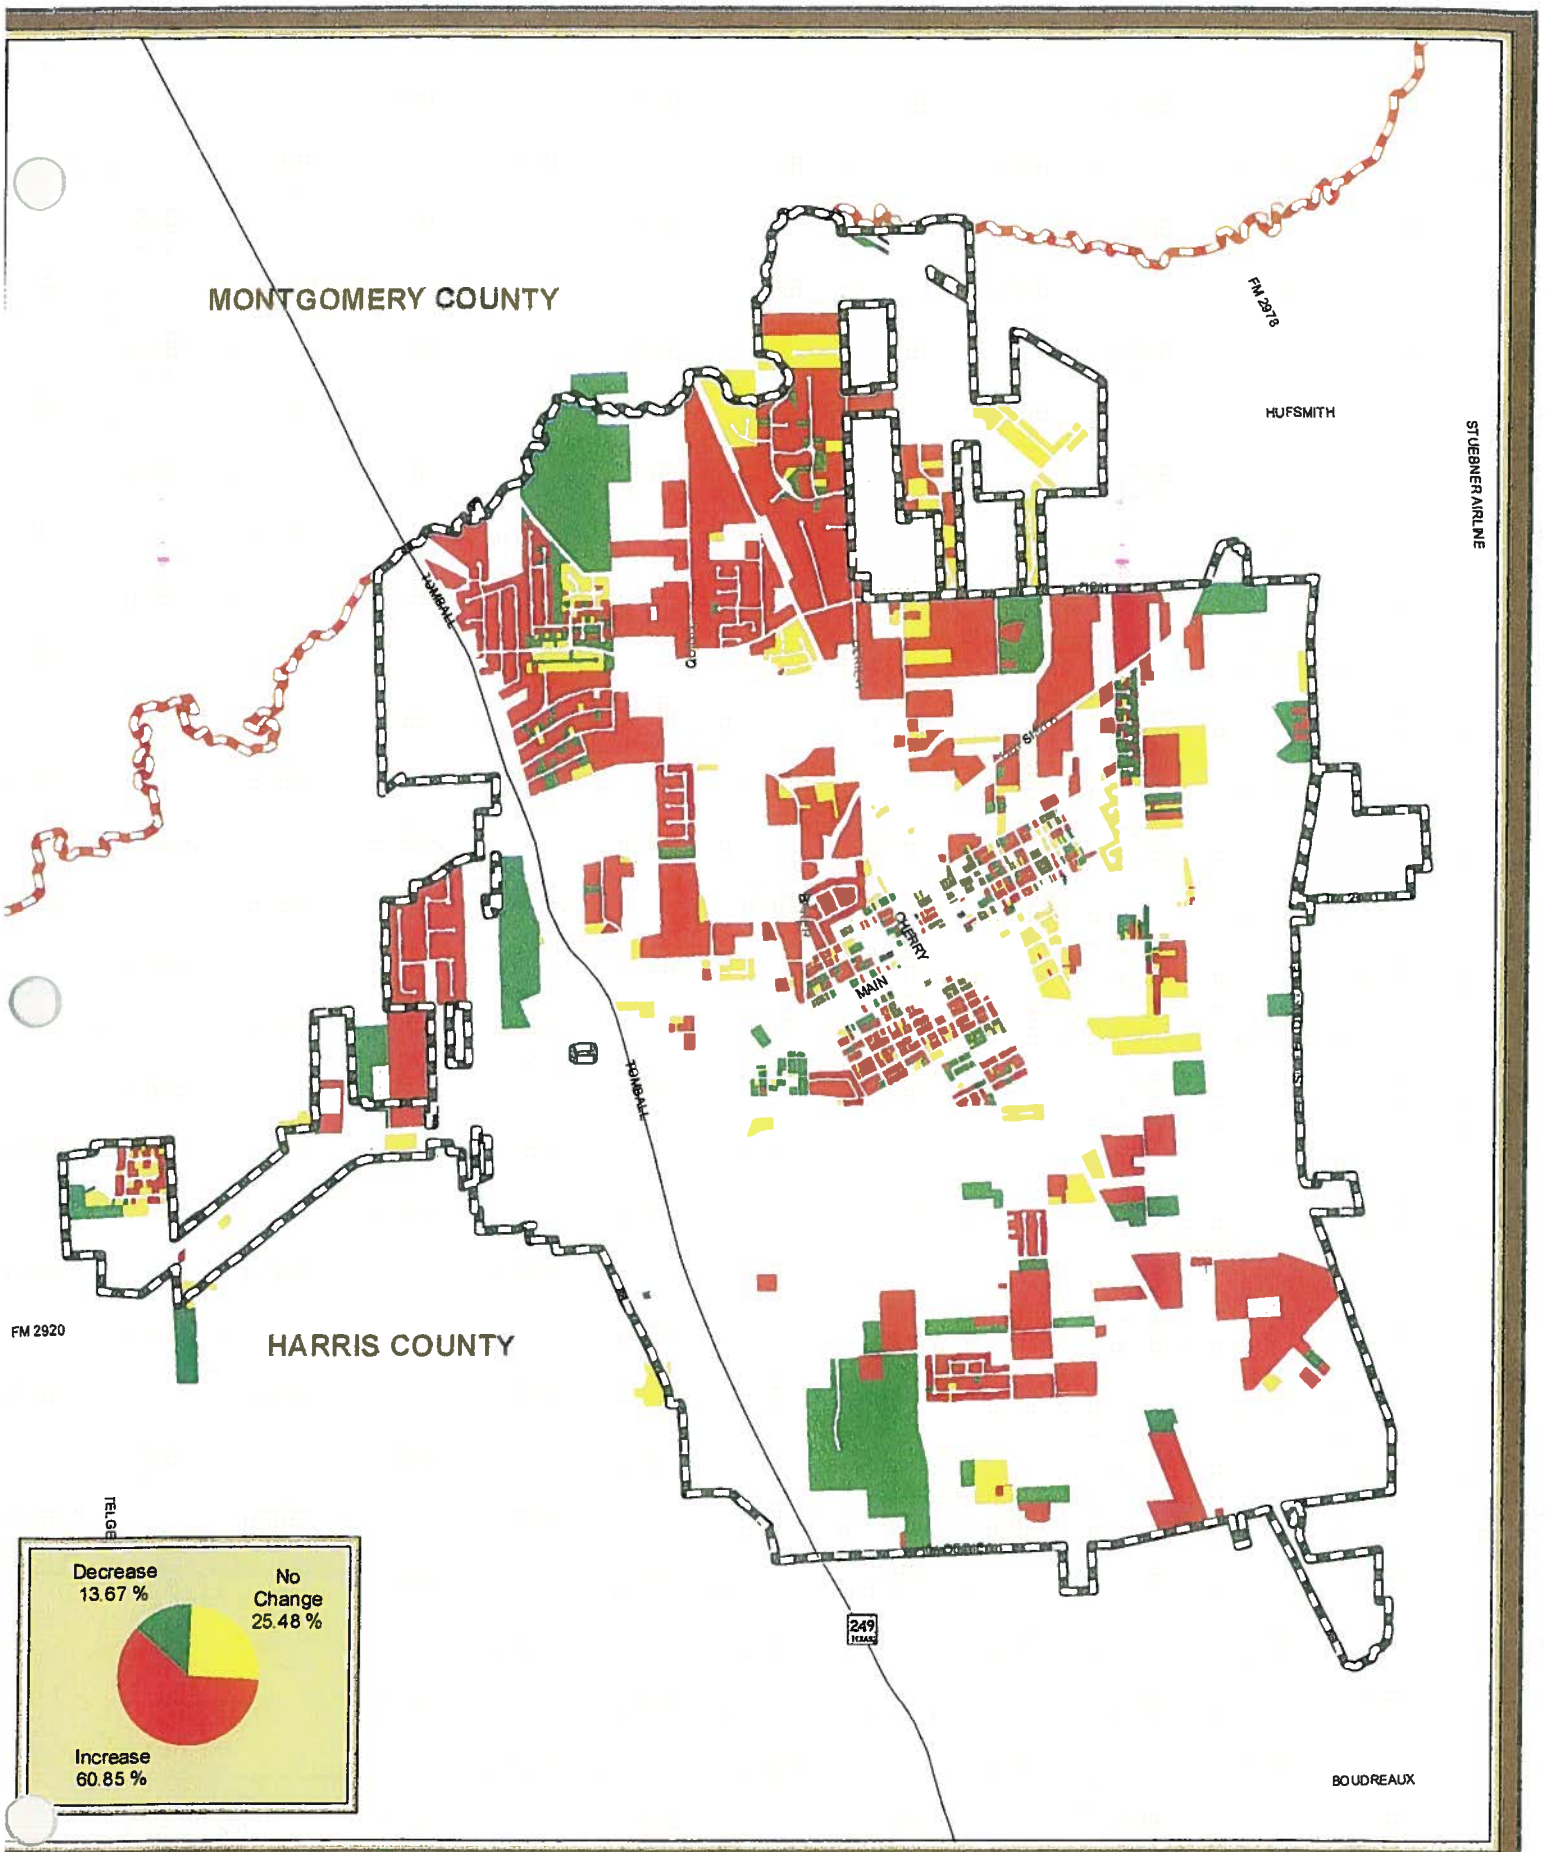

HCAD, like all appraisal districts in Texas, are commissioned by the State of Texas to appraise all properties at fair market value. Harris County is one of the hottest economic centers in the United States which is great news. However, the HCAD news will not be received as good news as you already know by your constituents. HCAD has been preparing for many months for what we anticipate will be a record year of protest and litigation. The increase in HCAD's budget for legal services to defend the appraised value may have budget impact for all taxing authorities next year. Mostly likely the voice of concern by property owners will come your way in the coming months.

I hope you will find the enclosed map interesting and helpful as your City Council look to the future and next years' budget preparation. As your representative on the Board, I appreciate your support and together we can face the challenges this year will bring. My cell is 281-435-2446.

Sincerely,

Ed Heathcott

2013 Effective Tax Rate Worksheet
City of Tomball

Date: 09/06/2013

See Chapter 2 of the Texas Comptroller's 2013 Manual for Taxing Units Other than Schools for an explanation of the effective tax rate.

1. 2012 total taxable value. Enter the amount of 2012 taxable value on the 2012 tax roll today. Include any adjustments since last year's certification; exclude Section 25.25(d) one-third over-appraisal corrections from these adjustments. This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2) and the captured value for tax increment financing (will deduct taxes in Line 14).	$1,374,390,620
2. 2012 tax ceilings. Counties, cities and junior college districts. Enter 2012 total taxable value of homesteads with tax ceilings. These include the homesteads of homeowners age 65 or older or disabled. Other units enter 0. If your taxing units adopted the tax ceiling provision in 2012 or a prior year for homeowners age 65 or older or disabled, use this step.	$0
3. Preliminary 2012 adjusted taxable value. Subtract Line 2 from Line 1.	$1,374,390,620
4. 2012 total adopted tax rate.	$0.341455/$100
5. 2012 taxable value lost because court appeals of ARB decisions reduced 2012 appraised value.	
A. **Original 2012 ARB Values.**	$33,329,940
B. **2012 values resulting from final court decisions.**	$30,410,642
C. **2012 value loss.** Subtract B from A.	$2,919,298

7. 2012 taxable value of property in territory the taxing unit deannexed after Jan. 1, 2012. Enter the 2012 value of property in deannexed territory.	$0
8. 2012 taxable value lost because property first qualified for an exemption in 2013. Note that lowering the amount or percentage of an existing exemption does not create a new exemption or reduce taxable value. If the taxing unit increased an original exemption, use the difference between the original exempted amount and the increased exempted amount. Do not include value lost to freeport or goods-in-transit exemptions.	
A. **Absolute exemptions.** Use 2012 market value:	$1,275,420
B. **Partial exemptions.** 2013 exemption amount or 2013 percentage exemption times 2012 value:	$3,166,850
C. **Value loss.** Add A and B.	$4,442,270
9. 2012 taxable value lost because property first qualified for agricultural appraisal (1-d or 1-d-1), timber appraisal, recreational/scenic appraisal or public access airport special appraisal in 2013. Use only properties that qualified in 2013 for the first time; do not use properties that qualified in 2012.	
A. **2012 market value:**	$1,293,979
B. **2013 productivity or special appraised value:**	$3,911
C. **Value loss.** Subtract B from A.	$1,290,068

11. 2012 adjusted taxable value. Subtract Line 10 from Line 6.	$1,371,577,580
12. Adjusted 2012 taxes. Multiply Line 4 by line 11 and divide by $100.	$4,683,320
13. Taxes refunded for years preceding tax year 2012. Enter the amount of taxes refunded by the taxing unit for tax years preceding tax year 2012. Types of refunds include court decisions, Tax Code Section 25.25(b) and (c) corrections and Tax Code Section 31.11 payment errors. Do not include refunds for tax year 2012. This line applies only to tax years preceding tax year 2012.	$22,259
14. Taxes in tax increment financing (TIF) for tax year 2012. Enter the amount of taxes paid into the tax increment fund for a reinvestment zone as agreed by the taxing unit. If the unit has no 2013 captured appraised value in Line 16D, enter 0.	$0

These homesteads include homeowners age 65 or older or disabled. A. **Certified values:** B. **Counties:** Include railroad rolling stock values certified by the Comptroller's office: C. **Pollution control exemption:** Deduct the value of property exempted for the current tax year for the first time as pollution control property (use this line based on legal counsel's advice): **D. Do not include any new property value that will be included in Line 21 below. E. **Total 2013 value.** Add A and B, then subtract C and D.	$1,269,452,231 $0 $0 $0 $1,269,452,231
17. Total value of properties under protest or not included on certified appraisal roll. A. **2013 taxable value of properties under protest.** The chief appraiser certifies a list of properties still under ARB protest. The list shows the appraisal district's value and the taxpayer's claimed value, if any, or an estimate of the value if the taxpayer wins. For each of the properties under protest, use the lowest of these values. Enter the total value. B. **2013 value of properties not under protest or included on certified appraisal roll.** The chief appraiser gives taxing units a list of those taxable properties that the chief appraiser knows about, but are not included in the appraisal roll certification. These properties also are not on the list of properties that are still under protest. On this list of properties, the chief appraiser includes the market value, appraised value and exemptions for the preceding year and a reasonable estimate of the market value, appraised value and exemptions for the current year. 21. Total 2013 taxable value of new improvements and new personal property located in new improvements. "New" means the item was not on the appraisal roll in 2012. An improvement is a building, structure, fixture or fence erected on or affixed to land. New additions to existing improvements may be included if the appraised value can be determined. New personal property in a new improvement must have been brought into the taxing unit after Jan. 1, 2012, and be located in a new improvement. New improvements **do** include property on which a tax abatement agreement has expired for 2013.	$22,747,382

Fund Description

The General Special Revenue fund accounts for Police forfeiture funds and Child Safety fees. Forfeiture funds are awards of monies or property by the courts related to cases that involve the Tomball Police Department. According to Chapter 59, Article 6, Paragraph (d) of the Code of Criminal Procedure, "Proceeds awarded under this chapter to a law enforcement agency may be spent by the agency after a budget for the expenditures of the proceeds has been submitted to the governing body of the municipality." Child Safety Fees are received through the Harris County Tax Assessor/Collector. These fees represent a portion of each citation written by the Tomball Police Department. The State of Texas allocates a percentage of each court fee to the Child Safety Program and is remitted back to the municipality to be used for educational material for children, coloring books, pencils, goody bags, etc and are distributed at various community events each year.

Fund Description

The Hotel Occupancy Tax Fund accounts for revenues received from hotel occupancy taxes. By state statute, cities with populations of less than 125,000 must spend at least 1% of hotel tax revenues on advertising, no more than 15% on the encouragement, promotion, improvement, and application of the arts and a maximum of 50% on historical preservation. Hotels submit quarterly to the City an occupancy tax based upon 7% of total room receipts. Compliance with the provisions of the state statues is monitored by the City administration on a continuing basis.

Fund Description

Automated red light photo enforcement cameras were setup during FY 2008. Four intersections were selected for this initiative with a goal of reducing the number of injury accidents caused by "red light running". By law, the use of the revenues is limited to traffic safety programs, including pedestrian safety programs, public safety programs, intersection improvements, and traffic enforcement.

Re: Update on Progress of Pavement Management Plan

Date: July 7, 2014

The public works department has maintained an aggressive approach towards the maintenance of the City's streets for a number of years. In 2009 public works consulted with HDR Claunch & Miller to develop an engineered Pavement Management Plan (PMP) for the City's concrete and asphalt street inventories to ensure that the City's street maintenance program appropriately targeted streets utilizing a condition-based prioritization system. PMP's utilize a Pavement Condition Index (PCI) as a standard rating system to prioritize maintenance schedules based on observed pavement conditions, effectiveness of existing drainage systems, traffic volumes, traffic types, and age of existing pavement. The industry standard goal for an effective PMP is to maintain the street inventory at a PCI of 70/100 or above in order to maximize maintenance dollars by utilizing more available funds for resurfacing and spend less for total reclamations and reconstructions as is typical for streets with a PCI below 70. When the City's current PMP was developed in 2009, the City was addressing streets with PCI ratings from 38 and up. The City is currently addressing streets with a PCI of 78 and above. Staff has determined that a goal of 80 (PCI) is obtainable within the next 2 years, which will enable the City to further maximize available funding while addressing more streets within each annual project. The results of an effective PMP also allows the user to consider current, newly developed, and the most cost effective methods for maintaining street inventories in order to maximize the life and available funds allocated for the maintenance of our streets.

Additionally, Public Works has incorporated the PMP into an overall infrastructure maintenance program to ensure that our street maintenance schedules coordinated with the maintenance of the City's utility infrastructure, drainage systems, and street signage replacement program. This comprehensive system maintenance program ensures that the City's major infrastructure is consistently maintained so that the areas that receive pavement maintenance are also left with all city-maintained utilities and drainage systems in good condition, and new street signs as needed. This also ensures that newly paved streets are not damaged by utility or drainage operations for repairs or replacements by simply coordinating all infrastructure maintenance schedules. The overall goal is to ensure that all residents and businesses located where streets have been repaved are left with no infrastructure maintenance needs and their daily lives are not interrupted by public works crews and equipment for as long as possible.

The following will show all completed streets since implementation of the PMP in 2009, as well as the streets that will be completed during FY 2014, and the streets that will be targeted during FY 2015.

A current map of all completed asphalt streets for 2003 - 2013 is attached for your reference.

Asphalt streets to be overlaid during FY2014 will include all of James St. from Pine to transition to Alma to Main St. and all of Joseph Ct.

In spring of FY2015, PW will perform an updated assessment of all city-maintained streets to revise priorities identified in the PMP developed in 2009. Therefore, the actual street priorities for FY2015 and beyond are currently unknown. However, based on existing conditions the priority streets for FY2015 and FY2016 will likely include; all of Theis Ln. (concrete and asphalt sections), Brown Rd. east of SH 249 to Quinn, and Baker from Main to Brown Rd.

Concrete Street Inventory

2009

- Development of Pavement Management Plan

2010

- Tomball Terrace – leveling of recessed concrete panels by pressurized concrete injection

- Hunterwood - leveling of recessed concrete panels by pressurized concrete injection
- Tomball Hills - leveling of recessed concrete panels by pressurized concrete injection

2011

- Tomball Terrace – Joint repair and sealing

2012

- Tomball Hills – Joint repair and sealing (includes saw cut remove and replacement of spaulded joints

2013

- Hunterwood – Replacement of failed panels and leveling of recessed concrete panels by pressurized concrete injection in preparation for joint sealing scheduled for FY 2015

The goal for the City's concrete street inventory for FY2016 and beyond is to continue minor panel repairs as needed, and to reseal all expansion and curb joints to prevent water infiltration into the sub-base which causes most concrete pavement failures. The most effective approach has been to target a complete subdivision each FY, from old to new, as this is where the majority of the concrete street inventory is located. Local concrete streets will be addressed at the same time.

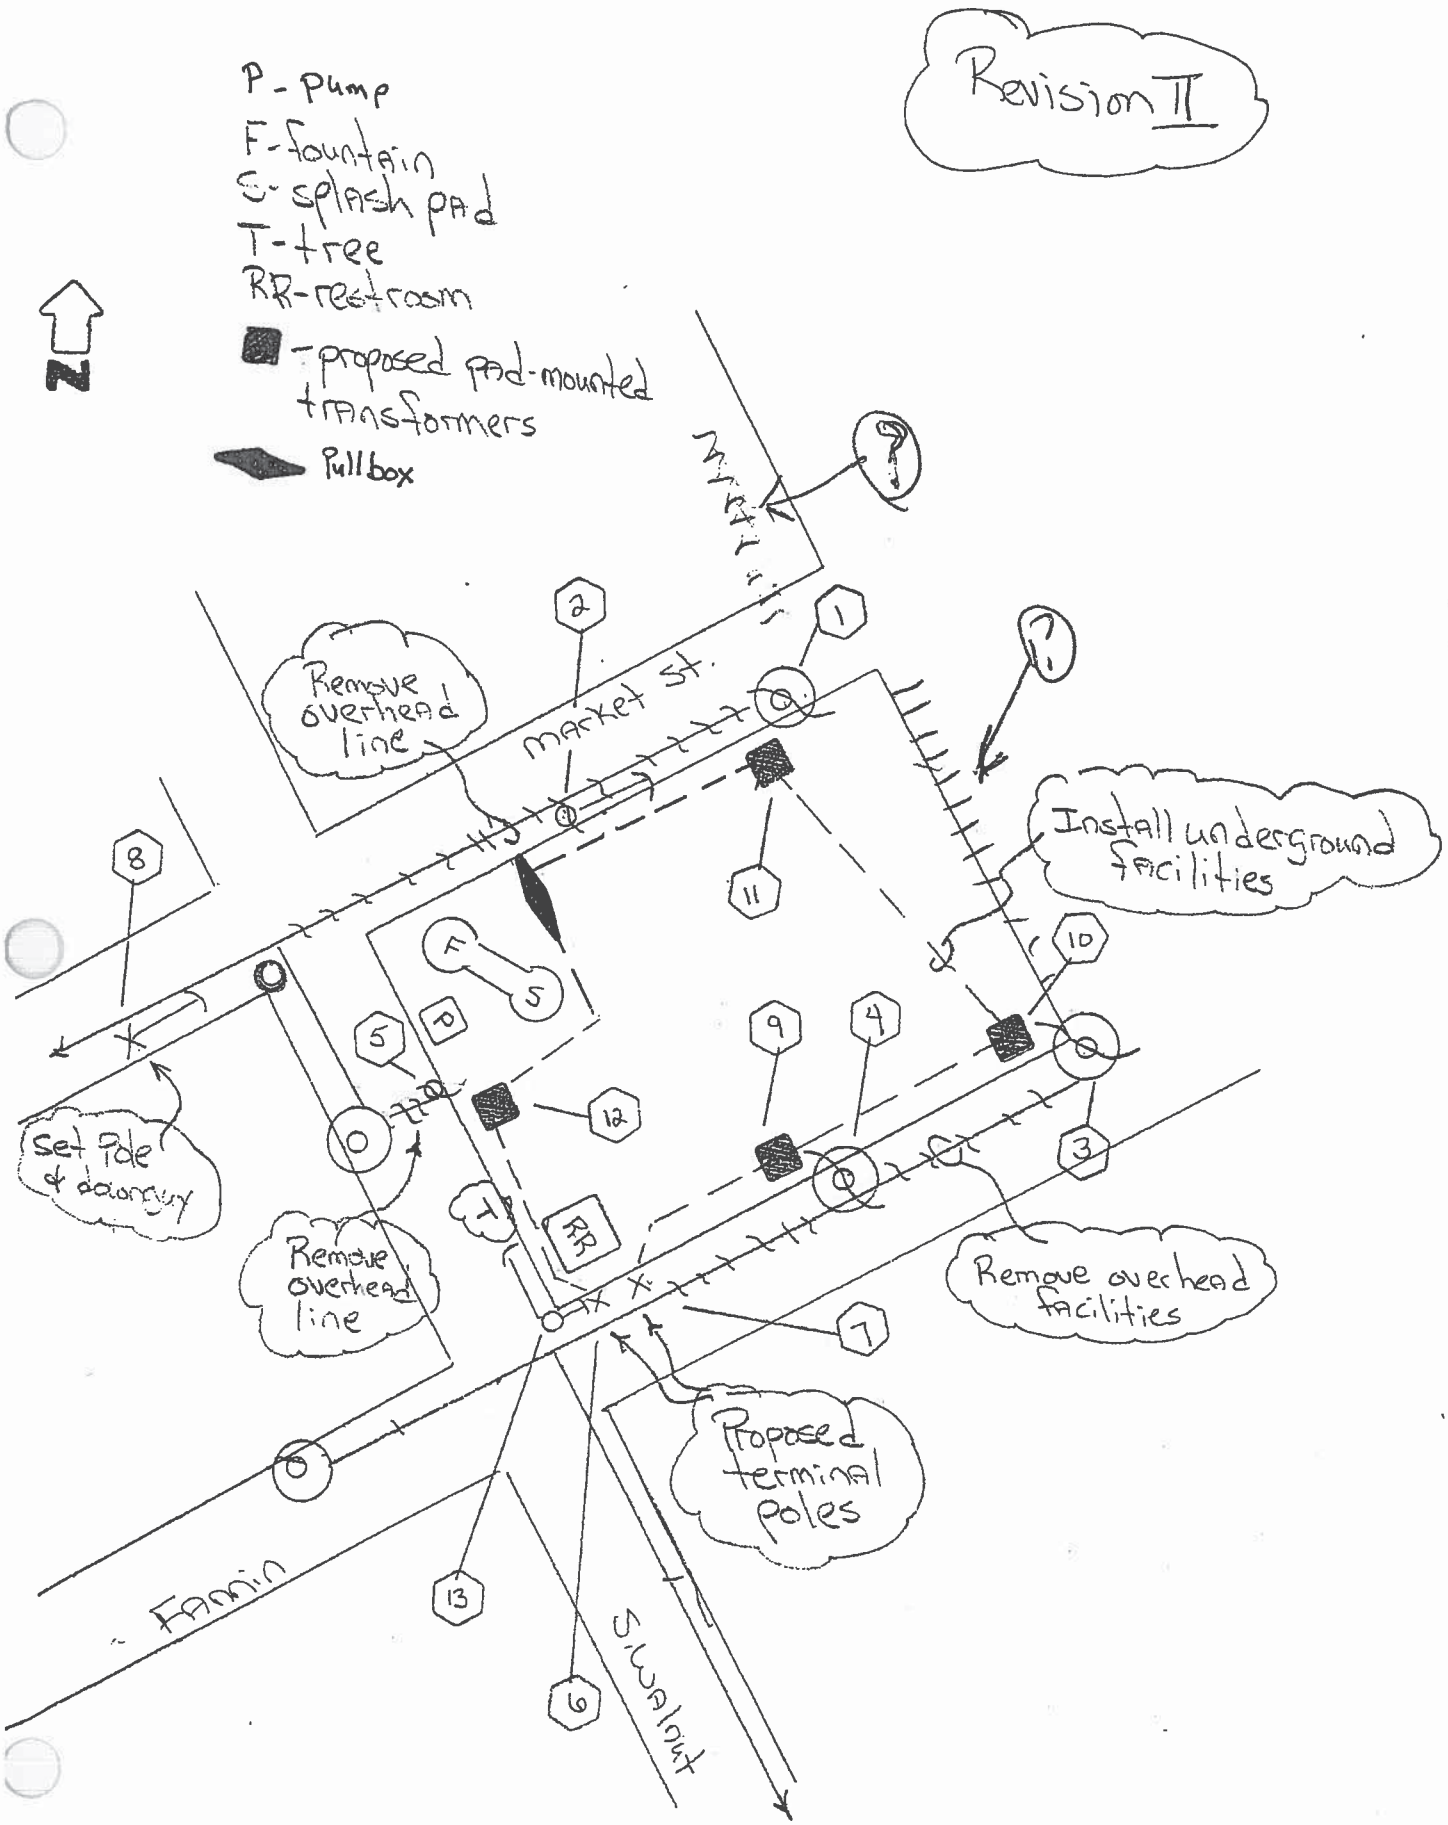

Feel free to call on me with any questions.

TMRS
TEXAS MUNICIPAL RETIREMENT SYSTEM

May 30, 2014

City #01284

City Official
City of Tomball
401 West Market St. Ste C
Tomball, TX 77375-4697

Subject: 2015 Municipal Contribution Rate

Dear City Official:

Presented below are your city's contribution requirements to the Texas Municipal Retirement System (TMRS) for Plan Year 2015 (Calendar Year 2015, PY2015) as determined by the December 31, 2013 actuarial valuation. The actuarially determined contribution rates for retirement benefits and Supplemental Death Benefits (SDB), if any, are based on your city's plan provisions in effect as of April 1, 2014 and the actuarial assumptions and methods adopted by the TMRS Board. Effective January 1, 2015, your city's monthly contribution rates will be as follows:

	Phase-in Rate	Full Rate
Normal Cost	9.94%	9.94%
Prior Service	2.99%	3.60%
Total Retirement Rate	12.93%	13.54%
Supplemental Death Benefit	0.18%	0.18%
Total Combined Contribution	13.11%	13.72%

The actuarial liabilities and contribution rates determined as part of the December 31, 2013 actuarial valuation reflect a change in post-retirement mortality assumptions, actuarial cost method, and amortization policy. Please see the "Actuarial Changes" section for more detailed information. Full information on your rate, including an explanation of changes, and the pension disclosure data to assist your city with the reporting requirements of the Governmental Accounting Standards Board (GASB) are also contained in the attached report.

The Total Retirement Rate shown in the Full Rate column above represents the Annual Required Contribution (ARC) under GASB Statement No. 27 for PY2015. **The Total Combined Contribution Rate shown in the Phase-in Rate column above represents the minimum required contribution rate to TMRS for PY2015.** The difference represents the portion of your Full Rate that is eligible to be phased in. Please see the "Phase-in Rates" section for more information. **Your city must contribute at least the Phase-in Rate, though TMRS highly recommends that each city contribute as much toward the Full Rate as possible. Please note that if your city chooses to contribute at a rate below the 2015 Full Rate, the contribution shortfall will be reflected in your city's unfunded actuarial accrued liability and contribution rate in subsequent years as well as in your employer's financial statement.**

If you have questions about your rate or if you wish to evaluate potential changes in your TMRS plan, contact TMRS at 800-924-8677.

Sincerely,

Eric W. Davis
Deputy Executive Director

Overview

Contributions are paid to the Texas Workforce Commission (TWC) in one of two ways: taxes or reimbursements. Taxed employers pay taxes every quarter. Reimbursing employers, which include certain non-profit and government employers, pay no taxes but must repay TWC for unemployment benefits paid to eligible former employees.

A reimbursing employer is required to report wages for employees. If unemployment benefits are paid to former employees, the employer is billed quarterly for the amount of regular benefits and 50 percent of any federal extended benefits paid during the prior quarter, except for government employers who pay 100 percent of federal extended benefits.

Which Employers Pay Reimbursements

The following employers may pay reimbursements instead of unemployment taxes:

- A political subdivision of the state which chooses to be a reimbursing employer including municipalities, counties, utility districts, public education institutions, etc.
- A non-profit organization described in Section 501(c)(3) of the Internal Revenue Code
- State government agencies
- An American-Indian tribe or any of its governing bodies

How Reimbursements are Paid

TWC will send you a Reimbursable Unemployment Benefits Statement. Reimbursement payments are due on the specified due date and may be made using any of the payment options for Unemployment Insurance tax. A reimbursing employer is subject to the same penalties as a taxed employer for failure to file reports or make payments on time.

Electronic funds transfers are required for an employer that paid reimbursements in the preceding state fiscal year of $250,000 or more and anticipates doing the same in the current fiscal year.

Advantages & Disadvantages of Paying Reimbursements

Possible Cost Savings

To choose to become a reimbursing employer is comparable to making a decision to discontinue carrying casualty insurance. If no casualty occurs, the cost of the premium has been saved. Likewise, if no former employee is paid unemployment benefits, the organization has saved the cost of the tax.

Potential Liability for Past Employees

A taxed employer normally knows in December of each year his tax rate for the following year. A reimbursing employer never knows his potential liability and may be required to pay reimbursements well after the individual has been separated from his employment.

An unfortunate scenario could occur if an employee chooses to leave your employment and is laid off by their next employer. You could be liable for a portion of that employee's unemployment benefits.

A reimbursing employer can protest payment of unemployment benefits only if they were the claimant's last employer. This means that a reimbursing employer sometimes has no control over the award of benefits even though it must pay for them.

Disaster Declaration Protection

A reimbursing employer, unlike a taxed employer, is not protected from charges to his account if the employee's last separation is the result of a disaster declaration by the president of the United States or the governor, or is the result of a natural disaster, fire, flood, or explosion.

Liability for Benefits Paid in Error

Even if unemployment benefits are paid in error, the reimbursing employer still owes TWC for that money. We cannot credit the employer until we receive the money back from the claimant.

Electing to Pay Reimbursements

Eligible employers must complete an Election to Pay Reimbursements (Form C-6A) to elect to pay reimbursements. For a newly-established employer tax account, this form must be submitted to TWC within 45 days from the date the liability notice letter is sent to the employer. For previously established taxed employers, the application must be received by December 1st to change the status for the next calendar year.

After their status is established, employers must remain a taxed or reimbursing employer for at least two calendar years before requesting to change that status. Reimbursing status may be changed by filing the Application for Withdrawal of Election to Pay Reimbursements (Form C-6F) with TWC no later than December 1. The new status takes effect January 1 of the following year.

Group Accounts

The Texas Unemployment Compensation Act (TUCA) provides that two or more reimbursing employers may file a joint application with TWC to establish a group account for the purpose of sharing the costs of unemployment benefits paid to former employees.

The members of a group must designate an individual to act as the group representative for submitting reports and paying reimbursements.

The advantage in forming such a group is that the risk to a member for payments of reimbursements may be shared among all members. On the other hand, a member may be required to share in the reimbursements although no former employees have been paid unemployment benefits.

Tax Rates for Government Employers

Unemployment Insurance tax rates are calculated for taxed government employers as a group. All taxed government employers will have the same rate in a given year. Unemployment Insurance tax rates for taxed government employers are determined by how much all government employers have withdrawn from the Unemployment Compensation Trust Fund in benefit payments to their former employees as compared to the amount of taxes that they paid.

Approve Resolution No. 2014-20, a Resolution of the City of Tomball, Texas, Soliciting Support for Legislative Action to Change the Deadline for Posting the Proposed Property Tax Rate Notice as Required by Texas Local Government Code Section 140.010

Background:

Resolution No. 2014-20 is submitted for approval by the City Council of the City of Tomball, soliciting support for legislative action to change the deadline for posting the proposed property tax rate notice as required by Texas Local Government Code Section 140.010.

Section 140.010 of the Local Government Code was added during the 83rd Texas Legislature and became effective January 1, 2014. This new section created a *Notice of Proposed Property Tax Rate* that must be published prior to adoption of the property tax rate. This new legislation also established a deadline for the notice as September 1, of each year.

I am sure that the intent of the legislation was to be in the best interests of the taxpayers. The new September 1 deadline is not a problem in the other 253 counties in Texas, but, as with all other legislation in Texas having anything to do with the property tax appraisal process, it will not work in Harris County. In fact, all legislation regarding the property tax appraisal process should include the words *"except in Harris County"* in the text of the bill.

Over the last seven years, the City of Tomball and other taxing entities within Harris County have received certified appraisal rolls between August 23 and September 12. Once the appraisal roll is received, the Effective Tax Rate has to be calculated (Tomball's is done by the Harris County Tax Office) and published in the newspaper prior to tax rate adoption. Therefore, a new law requiring a deadline of September 1 for the *Notice of Proposed Property Tax Rate* cannot be complied with until the Harris County Appraisal District begins to comply with the existing legal requirement of submitting the certified appraisal rolls to the taxing entities by the deadline of July 25. This has not been accomplished in Harris County since the creation of appraisal districts back in the early eighties.

With that background, we are requesting approval of this resolution to join with other cities in Harris County in seeking the introduction and passage of legislation to modify the deadline for publication of *Notification of Proposed Property Tax Rate* from September 1 of each year to "before the later of September 1 or the 30th day after the date the certified appraisal roll is received by the taxing unit."

WHEREAS, Section 140.010 of the Local Government Code was added during the 83rd Texas Legislature and became effective January 1, 2014; and

CHAPTER 1:

Truth-in-Taxation Overview

Creating a budget and adopting a property tax rate to support that budget are major functions of a governing body. This is accomplished by following Legislative guidelines to ensure the public is informed of any increases.

Important Dates

The Tax Code establishes target dates for many truth-in-taxation activities. Although circumstances may require an appraisal district or a taxing unit to alter the timetable, **Exhibit 2** sets out the framework for the required activities.

EXHIBIT 2

2012 Truth-in-Taxation Calendar

Date	Activity
April 1 – May 1	The chief appraiser sends notices of appraised value.
April 30	The chief appraiser prepares and certifies to the tax assessor an estimate of the taxable value of property in that taxing unit.
July 20 (Aug. 30)	The appraisal review board approves the appraisal records.
July 25	The chief appraiser certifies the approved appraisal roll to each taxing unit.
Aug. 7	A taxing unit publishes its notice of effective and rollback tax rates.
August – September	A taxing unit adopts its budget according to its fiscal year. After adopting the budget, the unit adopts a tax rate.
Before Sept. 30*	A taxing unit must adopt its tax rate by this date or 60 days after the taxing unit receives the appraisal roll, whichever date is later.

*Note: Tax Code Section 1.06 states that "If the last day of the performance of an act is a Saturday, Sunday, or legal state or national holiday, the act is timely if performed on the next regular business day.

Source: Texas Comptroller of Public Accounts, 2012.

Appendix 1 provides a more detailed schedule taxing entities can consult when planning their truth-in-taxation activities.

Taxing Unit Calculations

Truth-in-taxation requires most taxing units to calculate two rates after receiving a certified appraisal roll from the chief appraiser — the effective tax rate and the rollback tax rate. The type of taxing unit determines which truth-in-taxation steps apply. Generally, the governing body must take the following actions:

- determine and publish the effective tax rate and the rollback tax rate;
- decide how much revenue it needs;
- calculate the tax rate required to raise the amount it needs;
- publish notices;
- hold hearings if the proposed tax rate will exceed the rollback rate or the effective tax rate, whichever is lower;
- adopt the tax rate; and
- if necessary, administer a rollback election.

The following discussion covers rate calculation and adoption of the tax rate in greater detail. **Chapter 6** discusses rollback elections.

Before proceeding, it should be noted that water districts generally do not come under provisions of the Tax Code, but instead are governed by the Water Code.[3] Water districts, however, must follow public hearing requirements on a proposed tax rate and publish a special hearing notice.[4]

[3] Water Code § 49.107(g) provides that Tax Code §§ 26.04, 26.05 and 26.07 do not apply to taxing units created under Water Code § 49.001 that levy and collect taxes under Water Code §§ 49.107 and 49.108. Other taxing entities exempt from these provisions of the Tax Code include those created under Texas Constitution Article III, §§ 52(b)(1) and (2) and Article XVI § 59; navigation districts or port authorities created under general or special law; and any conservation or reclamation districts created by Revised Civil Statutes Annotated Article 8280-141, (Vernon Supp. 1951).

Approve Resolution No. 2014-11, a Resolution of the City Council of the City of Tomball, Texas, determining that 3.001 Acre Tract of Land is Needed for Use as a Drainage Channel as Part of the M121 Drainage Channel as Part of the M121 Drainage Project for the City of Tomball, Texas; and Authorizing the Institution of Eminent Domain Proceedings.

Background:

The M121 Drainage Project was approved by City Council in the FY 2011-2012 annual Budget. This project will provide drainage and detention for the M121 Drainage Basin. BACKGROUND

On May 28, 2013, City staff met with the applicant and property owner to discuss the expansion of Concordia Lutheran High School. - The southern property (Tracts 4, 4A, 4B, and 5) is comprised of multiple lots and would need to be replatted into one overall tract before the proposed improvements could receive site plan and building permit approval.

- The property has Comprehensive Plan designations of Employment/Office (Reserve A) and Medium Density Residential (Tracts 4, 4A, 4B, and 5) which are consistent with the proposed expansion.

- The property has zoning classifications of GR (Reserve A) and SF-6 (Tracts 4, 4A, 4B, and 5) Districts.

- The "School – Public or Denominational" use is permitted by right in both the GR and SF-6 Districts and would be permitted to expand.

- Because the southern property (Tracts 4, 4A, 4B, and 5) is zoned SF-6, Section 43.4 of the Zoning Ordinance requires that "Any nonresidential use which may be permitted in a residential zoning district shall conform to the O, Office district standards…"

- If the applicant wanted to develop under one set of zoning standards instead of two, they could request the entire property be rezoned. However, staff informed the applicant that rezoning the southern property to the GR District would be inconsistent with the Medium Density Residential Comprehensive Plan designation and rezoning the northern property to the SF-6 District would be inconsistent with the Employment/Office Comprehensive Plan designation.

- Another option that was discussed was the possibility of requesting a PD District because they are proposing to have multiple land uses operating at the site: "School – Public or Denominational," "Church/Temple/Place of Worship," and "Playfield or Stadium (Private)."

On June 16, 2014, the City received a PD (Exhibit "D") application from the applicant and property owner along with a concept plan and development standards.

ANALYSIS

The concept plan (Exhibit "E") indicates that multiple new buildings will be constructed, several existing buildings will be expanded, new parking and drive aisles will be established, numerous new athletic facilities will be constructed, the site will be heavily landscaped, screening and buffering mechanism will be utilized, and numerous other site improvements. Additionally, the proposed development standards (Exhibit "F") appear to allow the property owner to effectively use their property while protecting the public's health, safety, and welfare. Examples of this include:

- Limiting the land uses to only "School – Public or Denominational," "Church/Temple/Place of Worship," and "Playfield or Stadium (Private)."

- Establishing minimum lot area, depth, and width standards that are much larger than the minimum requirements of the GR and SF-6 Districts.

- Requiring the major building materials to be masonry when the Zoning Ordinance does not have building material standards for the GR or SF-6 Districts.

- Establishing screening, buffering, and lighting standards in excess of the City of Tomball's regulations.

There are a number of land uses in the area. To the north of the subject site are F.M. 2920 ROW, vacant land, various commercial uses, and the entrance to Good Shepherd Episcopal Church; to the south are vacant land and single-family residences; to the west are a Harris County Flood Control ditch, a welding supply shop, vacant land, duplexes, Chestnut Business Park, and a self-storage facility; and to the east are Blackshear Street ROW, single-family residences, and vacant land (Exhibit "G"). Although there are single- and two-family residential uses in the vicinity of the subject site, the concept plan and development standards proposed for this development appear to minimize land use incompatibilities.

There are a number of zoning districts in the area. To the north are the GR and OTMU Districts; to the south is the SF-6 District; to the west are the GR, OTMU, SF-6, and PD-3 Districts; and to the east are the SF-6 and GR Districts. A Planned Development District "accommodates planned associations of uses developed as integral land use units such as office parks, retail/commercial or service centers, shopping centers, residential developments having a mixture of housing options, or any appropriate combination of uses which may be planned, developed or operated as integral land use units either by a single owner or a combination of owners." Although there are single-family residential districts in the vicinity of the subject site, the concept plan and development standards proposed for this development appear to minimize zoning district incompatibilities.

The Comprehensive Plan identifies the site as "Employment/Office" (Reserve A) and "Medium Density Residential" (Tracts 4, 4A, 4B, and 5). According to the Comprehensive Plan, "Employment/Office indicates where employment uses that are not industrially focused should occur. These uses include corporate headquarters, regional offices, professional offices, light enclosed manufacturing or assembly facilities, office/showrooms, and small business office suites. Some retail activities are permitted in this land use to support offices and employment operations." Additionally, "Medium Density Residential includes suburban-type development that is intended to be single family detached residential development. This designation may also include such supporting land uses as neighborhood shops and services, parks and recreation amenities, religious institutions, small offices and schools to serve local residents where deemed appropriate by the City." The proposed rezoning to a mixed use Planned Development District appears to be consistent with the "Employment/Office" and "Medium Density Residential" classifications.

ZONING CONSIDERATIONS

In making its recommendation regarding a proposed zoning change, the Planning & Zoning Commission shall consider the following factors:

A. Whether the uses permitted by the proposed change will be appropriate in the immediate area concerned, and their relationship to the general area and to the City as a whole.

Although there are multiple single-family residential uses and residentially zoned properties in the vicinity, the concept plan and development standards proposed for this development appear to minimize land use incompatibilities.

B. Whether the proposed change is in accord with any existing or proposed plans for providing public schools, streets, water supply, sanitary sewers, and other utilities to the area.

The proposed rezoning is not anticipated to negatively impact public schools, streets, water supply, sanitary sewers, or other utilities to the area.

C. The amount of vacant land currently classified for similar development in the vicinity and elsewhere in the City, and any special circumstances which may make a substantial part of such vacant land unavailable for development.

There are no other tracts, vacant or occupied, in the vicinity or elsewhere in the City zoned PD District intended for the same purpose as proposed by the applicant.

D. The recent rate at which land is being developed in the same zoning classification as the request, particularly in the vicinity of the proposed change.

There has been no development City-wide or within the vicinity in a PD District intended for the same purpose as proposed by the applicant.

E. How other areas designated for similar development will be, or are likely to be, affected if the proposed amendment is approved.

If the proposed zoning change were approved, there should be few if any affects on other areas designated for similar developments.

F. Any other factors that will substantially affect the public health, safety, morals, or general welfare.

The proposed zone change is not anticipated to substantially affect the public health, safety, morals, or general welfare.

G. Whether the request is consistent with the Comprehensive Plan.

The proposed rezoning to a mixed use PD District appears to be consistent with the "Employment/Office" and "Medium Density Residential" classifications.

PUBLIC COMMENT

Property owners within 200 feet of the project site were mailed notification of this proposal on July 29, 2014. One public comment form was received in support of the request as of August 6, 2014 (Exhibit "H").

RECOMMENDATION
